Administration of oath of office to Speaker was administered by the Honorable W. Oryyl Schalick, Judge of the Superior Court.

The Speaker addressed the General Assembly as follows:

Ladies and Gentlemen of the General Assembly:

It is with a sense of pride and yet great humility that I accept this high honor that you have bestowed upon me. It would be difficult indeed to express my real appreciation.

Today begins my fourth term in the New Jersey General Assembly. During the past six years I have had the privilege of working with many of you on a wide variety of problems of vital interest to our State. Many have been solved while by the same token, new ones continue to arise.

I feel it is fair to suggest that the past legislative session has been one of reasonable accomplishment. This is particularly noteworthy when you consider it was achieved during an important election year in New Jersey when quite

frequently accomplishment is sacrificed in an effort to gain political advantage.

I point with particular pride to the fact that the seats in the Assembly were finally reapportioned this past session, after years of shameful procrastination. Also, a formula has been provided which will certainly facilitate equitable and proper representation in years to come. The fact that this was not accomplished with complete harmony, however, is not at all surprising.

New Jersey is now also prepared to embark on a "Green Acres" program. This was certainly necessary, if the recreational needs of our citizens are to be properly provided for.

Due to approval of the institutions bond issue in the last election, we will now be in a position to provide more adequate care for our sick and unfortunate.

These are but a few of the accomplishments that are in no small part the result of affirmative action on the part of this legislative body. However, as many problems have been resolved, still others continue to arise and many of the unsolved ones become more acute.

Without attempting at this time to indicate specific action, I am cognizant of the fact that most of us realize there are many matters that command our immediate attention. It is certainly to be hoped that more adequate and realistic financial aid can be provided in the field of education—in both the areas of public and higher education. This represents a real need.

Our highway and rail-transportation programs also require our continued attention and action.

Our continued vigilance in the field of law enforcement and our continued co-operation with police agencies must retain a high priority.

To create new jobs, provide proper security for our labor force, and yet maintain a favorable industrial climate are goals which we must try to realize.

In my opinion there has been a greater degree of co-operation between New Jersey and her neighboring States than ever before. This we must continue to cultivate for the mutual benefit of all concerned.

These are but a few of the many things I am hopeful we will be able to accomplish this year. I am also aware of the fact that many of you have already prepared legislation which you anticipate will effect some of these ends.

If we are to be successful, both the majority and minority party must work together. This I am confident they will do, as in all sincerity there is a far greater spirit of co-operation than when I entered the Assembly six years ago.

If we here in the Assembly are to meet the challenge, we must have a system of active functioning committees—not committees in name only, but live, active committees. Consideration of bills by these committees should start as soon as the bills are received, so we can avoid the usual year-end accumulation of important legislation. As these bills are released from committee, I will prepare a list for action the following session. All members will be informed in advance as to what bills they should be prepared to act on. I hope this will be a more productive and less frustrating method of operation.

I regard the position of Speaker of the Assembly as one which offers a great opportunity to serve. I will try to serve you fairly and impartially. With the co-operation I know you will give, and the dedication and sincerity of purpose I know exists, I look forward to a year when we can and will make this an even better New Jersey.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Speaker appoint forthwith a committee of five to wait upon the Governor and inform him that the General Assembly has organized by the election of the Honorable John W. Davis of Salem County as Speaker, and of Ernest T. Scheidemann of Passaic County, as Clerk of the One Hundred and Eighty-sixth Session of the General Assembly of New Jersey, and is now ready to proceed to business.

The Speaker appointed a committee of five, consisting of: Messrs. Brady, Hudson County; Koenig, Burlington County; Farrington, Mercer County; Bateman, Somerset County; Rutherford, Sussex County.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Clerk of the General Assembly be directed to inform the Senate that the General Assembly has organized by the election of the Honorable John W. Davis of Salem County as Speaker, and Ernest T. Scheide-mann of Passaic County as Clerk of the One Hundred and Eighty-sixth Session, and has proceeded to business.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted by the following vote:

Be It Resolved, That the General Assembly proceed to fill the remaining several offices of the General Assembly, and the nominations be made and a vote taken for all of the offices at one and the same time.

In the affirmative were—

Messrs. Barbour, Barkalow, Bateman, Beadleston, Biber, Bigley, Brady, Bressler, Brigiani, Crabel, Doren, Farrington, Frederick, Gimson, Gross, Halpin, Hauser, Hiering, Higgins, Hughes, Kay, Keegan, Keith, Kijewski, Kordja, Krueger, Lubetkin, Lynch, Mandelbaum, Maraziti, Matthews, McCurrie, McGowan, Meloni, Miller, Minotty, Moraites, Musto, Panaro, Policastro, Randall, Richardson, Rimm, Sarcone, Savino, Sears, Smith, Stamler, Sweeney, Tanzman, Vohdin, Wanner, Wegner, Werner, Wilson, Woodcock, Yost—57.

In the negative—None.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That unless otherwise ordered the regular hours of meeting of the General Assembly for morning, afternoon and evening sessions be respectively at 11:00 o'clock A. M., 2:00 o'clock P. M., and 8:00 o'clock P. M.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Speaker is hereby authorized and directed to appoint a committee of seven members to serve as a Committee on Rules.

The following committee of seven was appointed:

Messrs. Hauser, Hudson County, Chairman; Keegan, Passaic County, Doren, Middlesex County, McGowan, Union County, Matthews, Essex County, Beadleston, Monmouth County, Savino, Bergen County.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the rules of the General Assembly for the 1961 session be adopted as the official rules for the first three weeks of the session of 1962.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Yvonne Sarcone, daughter of Mr. Sarcone of Essex County, be adopted as daughter of the General Assembly for 1962; and Robert Patrick Halpin, son of Mr. Halpin of Cumberland County, be adopted as son of the General Assembly for 1962.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the number of copies of the Legislative Manual apportioned by law to the General Assembly be distributed under the direction of the Clerk of the One Hundred and Eighty-sixth General Assembly as follows: To each member of the General Assembly, twenty (20) copies; to the Clerk, twenty (20) copies; to the Assistant Clerk, Speaker's Secretary, Clerk to the Majority Leader and Clerk to the Minority Leader, each two (2) copies; to the Journal Clerk, Sergeants-at-Arms, Supervisor of Bills, Bill Clerk, Calendar Clerk, Assistant Journal Clerks, Assistant Bill Clerks, Assistant Supervisors of Bills, Assistant Sergeants-at-Arms, Pages, Legislative Correspondents and Reporters, each one (1) copy.

The Speaker recognized Mr. Matthews, of Essex County, Majority Leader.

The Speaker recognized Mr. Savino, of Bergen County, Minority Leader.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

	STATE OF NEW JERSEY,	}
	SENATE CHAMBER,	
<i>Mr. Speaker:</i>	January 9, 1962.	

I am directed by the Senate to inform the General Assembly that the Senate has passed the following concurrent resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 2:55 o'clock P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of His Excellency Robert B. Meyner, Governor of the State of New Jersey, which will be delivered in person.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. Matthews moved that the General Assembly concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That until further order the printer be authorized and instructed to provide supplies and services as listed herein:

1. One thousand (1,000) copies of all bills for the use of the General Assembly and for all public distribution, and seven hundred (700) copies of all official reprint bills;

2. Five hundred (500) copies of the weekly Minutes for the use of the General Assembly;

3. Mail to each member of the General Assembly, properly perforated and cut for filing, as soon as possible after they are printed, the following: One copy of each part of the Minutes of the General Assembly; one copy of each part of the Journal of the Senate; one copy of each printed bill and resolution;

4. Mail to the Clerk of the General Assembly, Secretary to the Speaker, Assistant Secretary to the Speaker, Clerk to the Majority Leader, Clerk to the Minority Leader, printed copies of all bills and Minutes of the General Assembly and Journal of the Senate, properly cut for filing.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That no floor passes be issued by any officer or member of the General Assembly other than the Speaker, with the further provision that the privileges of the floor may be extended by a resolution duly adopted.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Speaker be and is hereby authorized to appoint such assistants as he may deem necessary.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That each member of the General Assembly be authorized to secure secretarial services at an annual compensation of four hundred dollars (\$400.00) per member.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Robert Burke be appointed as Special Bill Clerk, who shall be responsible for the distribution of printed bills and resolutions at such times as the Legislature is not in session, at a yearly compensation of eight hundred dollars (\$800.00), payable at such times as the other officers and employees of the General Assembly are paid.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the working staff of the General Assembly shall at all times be subject to the direction of the Speaker and the Clerk, who shall have authority to designate to any member of the staff such duties as may be required.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That in the absence of the Clerk, the Assistant Clerk shall perform all duties imposed by law and the rules of the General Assembly upon the Clerk.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved by the General Assembly (the Senate concurring):

That all payrolls and bills for expenditures incurred by either House be passed for payment only after approval by the Secretary of the Senate or the Clerk of the General Assembly and the Chairman of the Ways and Means Committees of the respective Houses.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the "Official Manual for Use in Drafting Legislation for Introduction in the New Jersey Legislature," prepared and published by the Law Revision and Legislative Services, be adopted as the official manual of practice and procedure of the General Assembly governing the form of bills to be introduced in the General Assembly and governing the conduct of the preliminary examination of bills proposed for introduction in the General Assembly required by the rules of the General Assembly; and

Be It Further Resolved, That in order to carry out said practice and procedure Charles deF. Besoré, John W. Ockford, William M. Lanning and H. Arthur Smith, Jr., be designated as counsel to the Committee on Revision and Amendment of Laws of the General Assembly and that the duties of such counsel shall be to conduct said preliminary examination of bills proposed for introduction in the General Assembly under the general supervision of the chairman of said committee and through the Division of Law Revision and Bill Drafting of the Law Revision and Legislative Services pursuant to law.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, A certain agreement for the maintenance and servicing of the roll call equipment now in operation in the General Assembly, has expired, and

WHEREAS, It is necessary and desirable that a further contract be negotiated and entered into; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey, That the Legislative Budget and Finance Director be and he is hereby directed to negotiate the terms

and conditions of a contract for the maintenance and servicing of the roll call equipment now in operation in the General Assembly with the International Roll Call Corporation of Richmond, Virginia, upon such terms and conditions as may be approved by the Speaker of the General Assembly.

Be It Further Resolved, That upon approval by the Speaker of the General Assembly of the State of New Jersey of the terms and conditions agreed upon, that said Legislative Budget and Finance Director cause a written agreement to be prepared and presented to said Speaker of the General Assembly of the State of New Jersey.

Mr. Matthews offered the following concurrent resolution, which was read by the Clerk and adopted:

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. That the Legislative Index be purchased for the use of the members of the Senate and the General Assembly, and for such other persons as the President of the Senate and the Speaker of the General Assembly shall designate, one copy of each issue to be mailed to the local address of each member of the Senate and the General Assembly, and to each officer or other person designated to receive the same, and in addition thereto one copy of each issue shall be delivered at the State House for each member of the Senate and General Assembly and for each other person designated to receive the same; that the publisher of the Legislative Index shall from time to time furnish such special proofs of the Legislative Index as may be ordered by the President of the Senate or the Speaker of the General Assembly; that payment for the Legislative Index shall be at the rate of forty dollars (\$40.00) for each subscription for a period not to exceed ten weeks, and three dollars and twenty-five cents (\$3.25) per copy furnished thereafter, bills for services received to be submitted at the end of each five weeks; and that statements of expenses for the Legislative Index and special proofs for charges to the Senate and the General Assembly be referred to the Secretary of the Senate, and to the Clerk of the General Assembly, respectively, and when approved by them said approval shall be indicated by the signature of the Secretary of the Senate for an expense of the Senate, and the Clerk of the General Assembly, for an expense of the General Assembly, respectively, and said bills, when approved, shall be forwarded to the

Legislative Budget and Finance Director for examination and audit, and said bills, when certified by the Legislative Budget and Finance Director, shall be forwarded to the Director of the Division of Budget and Accounting, who shall execute and deliver warrant checks in settlement thereof, and transmit the same forthwith to the State Treasurer for signature and delivery.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

	STATE OF NEW JERSEY,	}
	SENATE CHAMBER,	
<i>Mr. Speaker:</i>	January 9, 1962.	

I am directed by the Senate to inform the General Assembly that the Senate has organized and elected the Honorable Frank S. Farley, of the county of Atlantic, President, and Henry H. Patterson, of the county of Monmouth, Secretary, and has proceeded to business.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate and General Assembly met in Joint Session.

Speaker Davis called the Joint Session to order and turned the chair over to Mr. Farley, President of the Senate.

Governor Meyner delivered his Eighth Annual Message:

GOVERNOR'S ANNUAL MESSAGE TO THE LEGISLATURE

January 9, 1962.

Mr. President, Mr. Speaker and Members of the Senate and General Assembly:

If I depart today from the custom of making detailed recommendations for new law, you will understand that I do so because of the practicalities of the situation. And if otherwise I stray from the format of past messages, you can lay it to the liberties that may be taken in a curtain speech.

“THE MORE THINGS CHANGE . . .”

It would be nice if I could report that all the problems which faced New Jersey when this administration came to power have been neatly solved. That, of course, is not the case. Problems are constant in human experience. They flourish, they interbreed, they mutate or they turn a new profile. It is interesting to note that 51 years ago, nearly to the day, Governor Woodrow Wilson was telling the Newark Board of Trade:

“... all the congestion, all the great urban problems, all the great problems of water supply and of drainage, all the problems which are created by congestion of population lie here, right around us, where we are. Jersey has to solve the problems of the home and the city and the problem of transportation . . .”

The full text of that speech could, with negligible editing, stand as a fair summary of the problems that still beset us. Evidently there is validity in the saying, “The more things change, the more they stay the same.”

No, we have not eradicated all the problems. I like to think, however, that this administration has kept better than even with those at hand and has laid a firm basis for meeting those that inevitably will follow.

GOVERNMENT'S NEW MAGNITUDE

This generation has seen an enormous growth in the role of government in our society. Government has moved into many areas once reserved to other arms of the community.

It has done so, not on its own motion, but in response to ever-mounting need. People today expect services of government to an unprecedented degree. And the demand coincides with a period of great population growth. This increased responsibility of government to provide more services to more people has been further complicated by steadily rising costs.

The resultant problems are common to the entire country, but they are intensified here. We are, to begin with, a small State physically. Our growth rate outruns the national average. We are the most urbanized State in the Union and the second most densely populated. We are situated in the center of the country's most heavily populated region.

In the face of the rising demand for State action, this administration has met its obligations to a growing population without resort to the broad-based taxes imposed by all but one of the 49 other States. We have been able to do this, in large part, because of governmental economy and efficiency. The per capita cost of operating our State government is the lowest in the Nation. In proportion to population, we have the fewest State employees. Our credit rating is the best—triple A. The restoration of this rating in 1956 after a 22-year lapse has meant interest savings of \$3 million on our last three bond issues.

In a decade that saw our population increase by more than 1,200,000 persons, merely keeping current would have been no small task. I am proud that amidst all these pressures we had the foresight to undertake programs whose benefits will accrue, for the most part, to later generations.

NATURAL RESOURCES

I think, for instance, of our water resources development program looking to the needs of tomorrow's men and machines; of the Green Acres program looking to the future physical and spiritual refreshment of our people; I think of the four-State compact contemplating an ordered and balanced development of that great natural resource, the Delaware River.

This administration has made important progress in adding to public recreational lands. We have developed Island Beach while leaving much of its primitive beauty undisturbed. We acquired the Worthington Tract along the Del-

aware and completed the purchase of the Wharton Tract. A portion of Sandy Hook is now on its way to development for public use.

We have moved to develop the tremendous potential in the idle marshlands of Hudson and Bergen Counties. The Meadowlands Regional Development Agency, established in 1959, has set out to reclaim 15,000 acres of tidal meadowland, an area the size of the City of Newark in the heart of a great metropolis.

We have tried to bring order and design into State and local planning. The old Bureau of Planning has been strengthened and is now the Division of State and Regional Planning. Our State is far and away the leader in local planning assistance, with a \$2 million program serving more than 170 municipalities.

TRANSPORTATION

Typical of the way in which national problems reach a particular intensity here is the question of transportation by road and rail and air.

The volume of motor vehicle travel in this corridor State is seven times the national average. And it can be stated flatly that this enormous amount of travel is done over the finest and safest highways in the world. The Highway Department's yearly workload has increased more than threefold over the past eight years. The department has a \$120 million construction program in the current fiscal year. On the average, the department has spent and obligated more than \$93 million a year since January 1, 1954, for highway construction and maintenance and for aid to local governments. Approximately \$1 billion was spent in the 37-year period from 1917 to 1954; about three-quarters of \$1 billion has been spent and obligated in the seven years since.

Our Highway Department has developed the State's first master plan based on anticipated traffic in 1975. The department acts as liaison with the authorities dealing with toll highways, interstate tunnels and bridges and airports, assuring a broad compass in our approach to transportation.

SAVING COMMUTER SERVICE

Another step in this direction was the establishment of a Division of Railroad Transportation. It has become clear

that motor vehicles alone cannot cope with the job of moving great masses of people. In a State where appreciable numbers of people commute to and from other States to go to work, the deterioration of passenger rail service posed the threat of eventual chaos. The Division of Railroad Transportation, through the first program of its kind in the Nation, has maintained 96 percent of the State's essential commuter rail service through a contract system. Under this program some \$12 million has been appropriated in fiscal 1961 and 1962.

Looking beyond this standby measure, the Division is developing a program of rail improvements and consolidations intended to put the carriers in a position where the contract payments will no longer be required. An essential element of this program, the purchase of the Hudson and Manhattan "tubes" by the Port of New York Authority, will probably come before you at this session. It deserves prime priority.

COOPERATION WITH DELAWARE

The first bi-state agreement with Delaware has given New Jersey a voice in the operation of the existing Delaware Memorial Bridge and has prepared the way for construction of a second bridge.

Like it or not, the jet age has arrived in transportation. The question of locating a modern jetport where it can best serve the needs of the New York-New Jersey metropolitan area cannot be blinked away. This Legislature will have to turn its attention to this question. Inaction can have grave implications for our economy.

EDUCATION

Nowhere is the impact of our increased numbers felt so much as in the field of education. Enrollment in kindergarten through Grade 12 increased from 771,950 to 1,054,000 over the span of this administration. Experience tells us that more and more of these pupils will be seeking opportunity for education beyond high school—and needing it to meet the manpower requirements of a growing State.

In the field of higher education we have increased our appropriations by two and a half times. A reorganization of Rutgers has made it in fact the State University. A bond

issue of \$66,800,000 financed new construction at Rutgers, Newark College of Engineering and the six State Colleges. Through other appropriations totaling more than \$14 million, we provided additional capital expansion for higher education and the School for the Deaf.

A program of financial aid to college students has provided scholarships aggregating \$3.5 million to 6,496 young men and women.

AN ESSENTIAL PROGRAM

A year ago the State Board of Education recommended legislation authorizing two-year community colleges with the State sharing the cost. This program is essential if we are to meet the demands for higher education. I am also impressed by the observation that these colleges can help fill industry's growing requirements for highly trained personnel. The State Department of Education is now conducting a further study of the future needs of higher education. The report of this study should be available soon; it will warrant your careful consideration.

The real demands of the past decade have been felt most heavily in elementary and secondary education. We have increased our State aid to local school districts fourfold. In addition, we established a school building aid program under which \$43 million has been disbursed since 1958. The State has also undertaken a new aid program for public libraries.

No problem will come before you at this session more pressing than the question of financing school costs in the future. Over the past eight years we have followed the traditional pattern of having this burden carried primarily by the local taxpayer, although the practice has been modified by our increased State aid contribution. At the present time the State Tax Policy Commission is studying this whole question of school financing. This study should have your careful attention.

HEALTH AND WELFARE

Of all the statistics that abound in government, and sometimes seem to clutter it, one set stands out as most gratifying. On June 30, 1953, there were 21,783 patients in our mental hospitals. On June 30 of last year, the number stood at 21,202. Despite a climbing population

over the eight years, we were keeping fewer people hospitalized. This happy trend reflected our leadership in the use of modern drugs and therapies. It also mirrored our general emphasis away from mere custody and onto treatment. In 1953, of every 100 patients admitted to a New Jersey mental hospital, 40 could expect to be released within six months. Today that ratio has risen to 60 of every 100.

MENTAL RETARDATION

In the field of mental retardation we have established extensive training and research facilities at the Johnstone Center in Bordentown. We have begun a Field Services program by which cases are handled on an out-patient basis. Resident facilities for the retarded have been increased to accommodate an additional 750 patients.

The Highfields project, which attracted national attention when it was inaugurated as an experiment in treating delinquency, is a proven program and three more facilities patterned after it have been opened, one of them for girls.

NEW BUILDING PROGRAM

With the approval of the institutions bond issue in the last election, we are now in a position to undertake a capital development program to expand and improve facilities in the Department of Institutions and Agencies. You will get today a bill appropriating the proceeds of the \$40 million bond issue. This measure requires immediate action because the sale of bonds is scheduled for next month.

Legislation is also needed so that the State may take full advantage of the funds available under the Kerr-Mills Act of 1960, providing grants to the medically indigent. It is to be hoped that Congress will soon enact the President's program to finance medical care for our senior citizens through Social Security.

A FIGHT AGAINST DISEASE

The State Health Department established a program of aid to hospitals and other local agencies for the treatment of chronic illnesses, notably diabetes, the pulmonary diseases, heart disease and cancer.

The department dispensed \$2 million worth of Salk vaccine for persons who could not afford to pay for inoculations.

New Jersey was the first State to adopt a set of minimum standards for municipal health activities.

Last year we added a comprehensive measure requiring the registration of drug manufacturers and wholesalers.

The Health Department has outlawed open dumps in favor of more sanitary methods of solid waste disposal. It has struck other blows, too, at air pollution, pioneering in scientifically sound, long-range control procedures. It was largely at the Department's prodding that industries and municipalities spent some \$275 million over the past 10 years on sewage disposal installations to reduce stream pollution.

The Governor's Committee on Sewage Disposal has recommended that the Department of Health be empowered to regulate the types of disposal systems appropriate to particular areas. This grant of power is in the public interest and the recommendation should be approved.

LAW ENFORCEMENT

Law enforcement against organized gambling was scandalously lax when this administration took office. The general respect for law had been weakened, too, because thousands of our citizens played bingo or bought raffle tickets, activities which, harmless enough, were nonetheless breaches of our gambling law. We put the lid on organized gambling and we kept it on. We legalized and regulated bingo and raffles so that their proceeds would go exclusively to charities.

THE HAPPY MEDIUM

I would warn you here that the very effectiveness of our policy on gambling may hold an element of danger. It may be reasoned that if we have pari-mutuel wagering, if we have bingo, raffles, and amusement games on boardwalks and at county fairs—if we have all this without abuse and virtually without incident, what harm in a little more, or maybe a lot more? Be careful of the inch that may become a yard. The whole history of gambling in our society resembles the swing of a pendulum—toleration, followed by excess, followed by repression. You should not lightly disturb the happy medium.

This administration stepped up the efficiency of our law enforcement machinery with the creation of a Criminal

Investigation Section in the Attorney-General's Office. This section coordinates criminal investigations conducted by the Attorney-General, the State Police and the County Prosecutors. We went a step of the way toward a basic improvement in the quality of law enforcement with the adoption of the Police Training Bill. This measure can stand improvement; its provisions ought to be made mandatory.

We can be proud of our State Police, a force second to none in the Nation. It has broadened its enforcement activities and has provided the most modern detection facilities for all law enforcement agencies.

TRAFFIC SAFETY

This administration has been tireless in its efforts to keep deaths and injuries on our roads and highways at a minimum. In six of the last eight years we have had a decrease in highway deaths, measured in terms of total mileage. In 1960 New Jersey was recognized by the National Safety Council as the State which had the best all-around safety record. Traffic safety was a major factor in that award. Safety is an unrelenting job, however, and citations should not lull us into a letup.

We established the automatic revocation program for excessive speeding. Under this so-called 60-70 program some 83,000 persons have had their driving privileges suspended. The "point system," directed at repeat offenders, resulted in 10,108 suspensions last year alone. Reciprocity agreements with Connecticut, Delaware and Pennsylvania have strengthened our enforcement arm, and more of these interstate agreements are being negotiated. We have improved techniques of investigation and research in accidents and have established the office of Traffic Safety Coordinator in many of our counties. We have started a statewide alcohol determination program, the first of its kind in the Nation, to measure on a uniform, scientific basis the alcohol factor in traffic fatalities. There is no risk in predicting that alcohol will be found a considerable factor in these tragedies—speed and drink are the killers. Legislation providing that submission to a sobriety test be a condition to the issuance of a license would be a great help in the fight for safer driving.

CONSUMER PROTECTION

An era of relative affluence put more disposable income in the pockets of our people. Not every one spends prudently and there is always a fringe of unscrupulous operators ready to take advantage of the unsuspecting consumer. We have adopted a legislative program to protect our consumers and to restrain those who would exploit them. A Consumers Fraud Bureau was set up a year ago to protect the public against a growing number of get-rich-quick schemers and to protect honest businessmen from unfair competition. We have licensed home-repair contractors and finance companies which handle home-repair contracts. We were one of the first states to adopt a statute regulating credit-life and credit-accident insurance sold in connection with installment credit transactions. We have licensed motor vehicle sellers and put ceilings on their interest charges. The Real Estate Commission in the Department of Banking and Insurance has strengthened its regulations covering honesty in advertising. The adoption of the Uniform Securities Law gave us a modern and effective weapon in regulating an area in which there has been increasing public participation.

GOVERNMENT STRUCTURE

Thinking of government in terms of mechanics alone, there have been gratifying advances over the past eight years. We are on the way to being better housed and in doing so we are remaking the face of this Capital City. We shall also put an end to the bewildering and inefficient scatter shot location of so many of our State agencies.

We have mechanized many operations in government, notably the Motor Vehicle Divison, the Budget Bureau and the Division of Employment Security. We have eliminated that vexing annual queuing-up for motor vehicle credentials. We pay unemployment benefits promptly now. In the staff of the Attorney-General's Office we shaped a first-rate law firm and gave substance and meaning to positions that were once regarded as sinecures.

The reapportionment of the General Assembly was a conformance to the ground rules of democracy that had been put off too long.

We have also created a new Congressional District from which we elect our 15th Representative next November.

There is still need, however, for a statewide redistricting of our congressional seats.

The adoption of the Uniform Commercial Code and of the Evidence Act of 1960 were landmark achievements.

We have made progress in law revision. The first portion of the revision of Title 40 has been enacted. The balance will be ready for your consideration this session. Revisions of Titles 18, 38, 48 and 51 likewise should be before you this session.

ASSESSMENT REFORM

We have been alert to the need for fair assessments in our property tax structure, on which municipalities, counties and school districts rely so heavily. Improved administrative procedure by the Local Tax Bureau, the Division of Taxation and the Division of Tax Appeals in the Treasury Department has done much to bring more equity to the assessment process. Legislation adopted in 1960, revising our assessment laws, will take effect in 1963. The Legislature should guard against any weakening of this essential reform or any further delay in its application.

UNFINISHED BUSINESS

There are areas where our progress has fallen short of the target. Our construction safety laws are largely obsolete and need an overhaul. Only a small beginning has been made on outlawing racial discrimination in rental housing. We have a vast need for middle-income housing. We need a labor relations law consonant with our position as one of the mighty industrial states.

Although the maximum benefit payable under our unemployment compensation law was raised to \$50 a week last year, the maximum weekly payment to injured employees under Workmen's Compensation is only \$40 a week. The compensation maximum ought to be raised to a realistic level.

The adoption of an amendment to the Constitution last November has given the Legislature the power and duty of insuring the continuity of State, county and local governmental operations in the event of a war disaster. Legislation to implement this amendment deserves priority in your program.

A PROSPEROUS ECONOMY

Our economy is sound and flourishing. Thousands of new enterprises have established operations in New Jersey in recent years. Investment in new industrial plant and equipment averaged \$400 million over the last 10 years. Personal income is expected to reach a record high this year. We have developed an intensive farm economy which leads the Nation in yield per acre.

There is comfort in both the character and the numbers of New Jersey industries. We are truly the research center of the United States, with more than 600 laboratories engaged in pure or applied research.

Ten percent of the Nation's research dollars are spent in New Jersey, and we have the highest number, per capita, of professional engineers and scientists. This emphasis on the service industries has balanced the loss of manufacturing jobs attributable for the most part to automation.

This administration has made significant improvements in the salaries and working conditions of State employees. This has enhanced our ability to recruit and retain high-quality personnel. We increased the average annual salary of State employees from \$2,841 to \$4,370. A Health Benefits Program was established, providing free hospitalization, medical-surgical benefits and major medical insurance. The retirement benefits of our two major pension systems were improved, and, for the first time, the members got the advantages of Social Security coverage. A comparative study of pension systems in New Jersey and neighboring states shows that the benefits paid under our systems are the most liberal and that our employee contribution rate is the lowest.

CONCLUSION

I said at the outset that the volume of problems remains pretty much unchanged over the years. But there is a variable factor in the way they are met. They can be met confidently with will and resolution by people of ability and vision, or they can be parried, peeked at or wishfully thought away. I have tried to staff my administration with men and women who see government as a great challenge to imagination and enterprise, people who regard work in government as a headland, not a harbor. And throughout these eight years we have had the dedicated service of

27,000 men and women who have made a career of State government.

There is another mighty asset in the job of government—the people. I have tried to keep them informed on governmental matters, through the press, television, radio and personal contact, and the effort has been rewarding. I have a great respect for the ability of people, given the facts, to come up with the right answers.

Shortly you will get from my successor a blueprint of his legislative program. Governor-elect Hughes brings to the governorship a dedication to public service. He has a deep appreciation of the problems of the State. Eight months of arduous campaigning among many of the 6,000,000 citizens of New Jersey has served to alert and prepare him to tackle with vigor the task ahead. I hope he will have your complete cooperation. We can agree, I think, that some of the brightest legislative achievements came after partisan considerations were put aside.

Among the 81 legislators who were present when I delivered the first of those messages eight years ago, only 19 still serve here. Status flies as fast as time. You have relatively little time for your work and there is much to be done.

And now, goodbye. It is no secret, I suppose, that I have immensely enjoyed the great privilege of being Governor. A good part of its zest came in my dealings with the Legislature. Occasionally, as the song has it, it might have been a headache but it never was a bore.

I thank you and all the citizens of New Jersey whom you represent. All of you have my best wishes for a bright and productive future.

Respectfully submitted,

ROBERT B. MEYNER,
Governor.

Attest:

EDWIN C. LANDIS, JR.,
Acting Secretary to the Governor.

The Joint Session then adjourned.

The General Assembly reconvened.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

	STATE OF NEW JERSEY,	}

Which motion was adopted.

The following bills were introduced, were read for the first time by their title, ordered to have a second reading, and were referred to committees as follows:

By Messrs. Kijewski, Brady, Meloni and Sweeney,

Assembly Bill No. 1, entitled "An act concerning workmen's compensation, and amending section 34:15-12 of the Revised Statutes,"

Referred to the Committee on Labor and Industrial Relations.

By Messrs. Crabiel and Savino,

Assembly Bill No. 2, entitled "An act to amend the title of 'An act concerning the practice of professional engineering and land surveying (Revision of 1938), and repealing chapter 8, Title 45, of the Revised Statutes,' approved June 14, 1938 (P. L. 1938, c. 342), so that the same shall read 'An act concerning the practice of professional engineering, land surveying and professional planning, and repealing chapter 8, Title 45 of the Revised Statutes,' and to amend the body of said act,"

Referred to the Committee on Highways, Transportation and Public Utilities.

By Messrs. Crabiel, Stamler, and Minotty,

Assembly Bill No. 3, entitled "An act to provide for compensation to certain municipalities, wherein lands are held by any university or college supported wholly or in part from State appropriations, for the loss of tax revenue by reason of the exemption of such lands and the buildings and improvements thereon from taxation, whenever the Legislature shall make an appropriation for such purpose,"

Referred to the Committee on State, County and Municipal Government.

By Messrs. Crabiel and Minotty,

Assembly Bill No. 4, entitled "An act concerning State aid to the various counties and municipalities in the cost of repairing damage to county and municipal roads caused by use of such roads by vehicles of the gross weight and load of over 40,000 pounds and issued 'constructors license plates,' and supplementing chapter 13 of Title 27 of the Revised Statutes,"

Referred to the Committee on State, County and Municipal Government.

By Messrs. Maraziti, Sears, Biber, Hiering, Stamler, Kay and Sarcone,

(Eastern Standard Time).

Mr. Matthews moved that the General Assembly adjourn.

Which motion was adopted.

The Speaker declared the General Assembly adjourned.

At twelve o'clock noon both Houses of the Legislature met in joint session at the War Memorial Building and participated in the inaugural ceremonies of the Honorable Richard J. Hughes, Governor of the State of New Jersey.

GOVERNOR'S INAUGURAL ADDRESS TO THE LEGISLATURE

Members of the Legislature, Governor Meyner, Governor Driscoll, Chief Justice Weintraub, Reverend Clergy, My Friends and Fellow Citizens:

There comes a time in life, whether of a man or of the State itself, when there must be a pause for realistic appraisal of the future. I have just now taken the oath of office and have accepted the Great Seal of the State of New Jersey. In this solemn circumstance, while there is refreshment of the spirit in recalling the traditions and past achievements of a great State, there is, more significantly, the taking up of new strength for the challenges ahead.

We stand here in the presence of two distinguished former Governors of New Jersey. Both Governor Meyner and Governor Driscoll have made invaluable contributions to our State and our society. For their achievements, we salute them. The edifice of the future is more firmly built upon foundations of strength and character.

Here also with us are representatives of the other two branches of government. Their dedicated service is so necessary to the well-being of us all. These legislators and the Judiciary share with me the responsibility of serving the more than 6 million people of New Jersey with efficiency, with equity, with integrity.

Having taken an oath before Almighty God, I stand here in full awareness of my particular and heavy responsibility as Chief Executive of the State of New Jersey. I respect but do not shrink from the magnitude of the task before me. For as I stand before you today I sense, as I did during the long months of campaign, a new spirit, a new pride of the people.

It is this pride, tempered by the humility of an abiding trust in the Almighty, which convinces me of our ability as a people,

together, to look with hope upon the sobering face of the modern world.

This determination of our people to master their future has been well demonstrated.

There is abrupt realism in the affirmative votes of a million New Jersey citizens on the referendum providing continuity of government in times of disaster, a preparation now for the eventuality of an atomic holocaust which is an unfortunate condition of our modern life.

There is the courage of adventure in the spirit which has brought us to the eve of an accommodation with our sister State of New York to provide a promising solution to the transportation problems of our metropolitan communities in conjunction with a great new World Trade Center.

There is the generosity of the Good Samaritan in the approval of our referendum for an institutional bond issue to care for our unfortunate fellow citizens.

There is the foresight of a prudent people, by their referendum vote last Fall, in providing Green Acres for generations to come.

It is this admixture of the realism, the generosity and the courage of the people of New Jersey which fortifies me as we take up the task ahead.

There was a period in history when the people of New Jersey seemed content with a state government negative in nature and limited in action. But in recent years a new philosophy, a new role of government, has begun to take shape—government unafraid to act in the people's service.

Thus today there is rising in this capital city a complex of new state buildings symbolizing this new concept of government, this new pride of a people in their State.

There has been a quickened demand by the people for an efficient and effective management of their affairs, for we have moved from the days when the best government meant the least government. Good government today is one responsive to the needs of the people and the communities in which they live, not suffocating them with burdensome regulations, but providing an instrument for joint accomplishment. Good government looks beyond the powerful and the prosperous to achieve a healthy accommodation of the interests of all.

Good government is government with a sense of social justice, acting not as a patronizing busybody, but as a friend to the migrant laborer in his underprivileged status, the worker displaced by automation, the poultry farmer with his problem of overproduction, the Negro in search of a decent home—to mention but a few of the many—the all—for whom government truly exists. How can one begin to enumerate these categories? The commuter, the student, the taxpayer, the ill-housed, the aged, the small businessman—the list is endless.

But we must not forget that a viable economy is the foundation stone of such service. New Jersey has grown with America and I am determined that it shall set the pace for the economic progress of this nation. How does a modern state accomplish this? It seeks a fair and stable tax policy. It maintains a highly skilled labor force. It keeps its house in order and more, whether in law enforcement, in education, in transportation, in water policy, in all of the many components of a vital economy.

Today people look to their government not in fear, but in the hope and expectation with which they look upon a good neighbor to lend a helping hand when the pressures of modern life bear down heavily upon them.

This attitude represents a healthy change over that of fearful men who saw, and still see in every government service a threat to an ill-defined "freedom." In our modern technological society the opposite is nearer the truth. Prudent participation of government in the affairs of men has brought an expansion of freedom for the vast majority of people. But having affirmed our

faith in a government responsive to the people, let us retain a sensible scrutiny and check over those in government who bubble with enthusiasm to do everything for everybody.

Our problems in nearly every field arise from the inevitability of growth and the demands of progress. These problems, though difficult, are wholesome and capable of solution as contrasted with those which result from a resignation to decline and decay.

Our investment in New Jersey's progress, our commitment to New Jersey's growth, have required that for the first time in many years a governor will enter office with no binding pledges on tax policy save continuing every economy in government compatible with our obligations to the future. We shall not shirk these obligations of service to a modern and progressive State and I can but say that this Administration will do its full duty, measuring it carefully and providing for its cost.

The surest measure of government's concern for the development of a State, as well as the personal growth of each individual citizen, is the support of its educational institutions. We have seen the enormous rise in the cost of education. Not only must we face this financial burden, but also provide for its more equitable distribution. This basic investment is imperative to prepare our children for the challenges and opportunities of the future and, indeed, to survive in the competitive world about us.

A new emphasis must be given to higher education. There is a pressing need for additional facilities, a pressure which fortunately has sparked a renewed quest for excellence. Our youth should be encouraged to seek the best education from which they, as individuals, can profit. And this profit not only accrues to the individual, but also to the State and to the Nation. For instance, as our economic development continues to include our many research centers, nurtured by our colleges and universities, we know that as they flourish so does our State's economy prosper.

On another front, a balanced distribution of people, jobs and industries between our urban and suburban communities is essential for the revitalization of urban life and the orderly growth

of suburban areas. We cannot stand by while the bright face of New Jersey is disfigured by decay of its cities and a haphazard growth of its suburbs. The proposed Department of Urban and Suburban Affairs, working closely with private groups, with communities and local officials, should bring a planned development and co-ordination to those communities. There must be a bold attack in the field of urban renewal, with its eradication of slums and the development of new homes and business. The re-birth of our cities and planned development of our suburbs are inseparable.

And, as man does not live by bread alone, so must the spirit and moral tone of the State be nourished. Thus a continuing emphasis must and will be given to vigorous law enforcement and judicial administration of the highest order. Only in this way can we maintain the integrity which has given our people a new sense of confidence in government. Law enforcement must stress highway safety and the taking of every necessary step for avoiding the unforgivable waste of human life on the highways. If the rigidity of this enforcement brings inconvenience, or even hardship, it is a price well worth the saving of so much as one life.

There is abroad in the State today a reawakening of the public spirit, a revival of the power of the people, a feeling of restless urgency to put aside the considerations of politics and to meet like men the destiny of the future. In full-hearted recognition of this temper of the times and, indeed, the demands of conscience, I look forward to a period of close cooperation with the Legislature. We must dedicate ourselves, in a single-minded concentration, to the solution of our many problems, however bitter and divisive, as free as possible of the distraction of partisan ambitions.

But in the hands of our fellow citizens will rest the final success or failure of this course. Together—each man giving his due—we must make our contribution to the common good by our respect for law, by an active interest and participation in public affairs, by a willingness to accept the cost of the many services required by the people of their State and local governments.

I am conscious of a heavy debt to my State, for it is here that I have lived my life and had my being; where I have served as a judge; where I have practiced my profession; where I have reared my family; where I have touched the hands of friends.

It is with a deep awareness of this obligation that I approach my part in the major tasks ahead.

While we are only men, yet with the help of God, whose ministers we are, let us act together in the interest of the State we love, to strengthen and protect the heritage we hold in hand for ourselves and for succeeding generations.

RICHARD J. HUGHES,
Governor.

Mr. Werner offered the following resolution which was read by the Clerk and adopted:

WHEREAS, There is a growing tendency to attempt to prevent many persons from engaging in normal political activity and interest under the guise of conflict of interest; and

WHEREAS, Such actions have been extended to such an extent that the historic privilege and obligation of a citizen to take an active interest in his government is being forgotten; and

WHEREAS, Such actions conflict with the efforts to encourage the youth of each succeeding generation to take an active interest in and to participate in governmental affairs; and

WHEREAS, The directives and interpretations of rules of court in this field have a discriminatory nature not in keeping with our democratic form of government and tend to create a second class citizenship for certain outstanding civic-minded citizens; now, therefore,

BE IT RESOLVED *by the General Assembly of the State of New Jersey*:

1. The Assembly Investigating Committee is requested to make an investigation into matters relating to the curtailment of the historic privilege and obligation of citizens to engage in political activity, including the basis for public announcement of interpretations of court rules by the Administrative Director of the Courts.

Mr. Matthews moved that the General Assembly adjourn to meet in a joint session for the purpose of hearing the Annual Budget Message of the Governor.

Which motion was adopted.

BUDGET MESSAGE

To the Members of the Senate and General Assembly:

Just thirty-three days ago, I took my oath of office and assumed the responsibilities of Governor. On that solemn occasion, I outlined, in broad terms, my goals for New Jersey's future.

Today, I present to you my first Budget Message and we begin together, to move toward the goals I discussed on Inauguration Day and in the long months of campaign that preceded.

While governors change, government in New Jersey is a continuing process which, to be effective, must continue to build on foundations established by predecessor administrations. This Budget would continue and expand, in many ways, on the programs and services already in operation. It provides for the education of our youth, for accommodating a more balanced distribution of people between urban and suburban communities, for the decent welfare needs of our more unfortunate citizens, for the continued vigor of our law enforcement and for the myriad other services inseparable from the public interest. And, perhaps most important for the future, this Budget provides for the beginning of a broad new planning program that will lead to more effective government at all levels in the years of change that lie ahead of us. I will spell out in some detail the needs and improvements to which we must devote ourselves in those future years.

While this spending program begins the planning, and frames in outline, the projects of the future, it does not undertake many of those programs which will become our tasks later in this administration. For example, we maintain an impressive program of highway construction in the area where the needs are most critical—the urban regions of our State. But we do not, in 1962-63, strike out with bold new highway building efforts in the lesser developed southeastern sections of New Jersey. We know

we shall have to build in those areas in the next few years if the economy of New Jersey is to continue to flourish and expand. In the vital field of education, to take another example, we continue with established programs of State aid which, indeed, show by natural growth a substantial increase in demand on State tax sources. But over-all educational costs, particularly at the local level, continue to rise even faster. Today, we await a comprehensive restudy of the entire posture of State aid to education. On that and a number of other reviews hinges the future budgetary course of the State's educational endeavors. But the defining of that course must await a future message.

Meanwhile, we have a balanced budget, as required by our Constitution, and a budget which demands no new taxes. It recommends expenditures of \$499,985,751, just a little short of the \$½ billion mark. This Budget anticipates a Surplus on June 30, 1963, of more than \$2.6 million, a very thin margin when considered in the face of total revenue and total spending. While the net increase in this Budget over the amount required in the present year approximates \$29.2 million, actually the increase is more nearly \$38 million. That is so because the present appropriation includes \$8.8 million for capital construction of Institutions and Agencies which is not repeated next year. Instead, the immediate capital needs of that Department will be provided from the proceeds of the \$40 million Bond Issue approved by the people last November.

By far, the greater part of the recommended increases is found in the area of education and welfare. Together they account for \$31 million of the increase. Recommendations for education total \$205.3 million, an increase of \$23.1 million over the present year. Those for welfare total \$106.3 million, an increase of \$7.9 million. No less than \$19.7 million of the \$31 million for these purposes represents items over which there is little or no executive control because of statutory formulae. For the most part, these expenditures are in the area of State aid and subsidies to local districts.

BUDGET REQUESTS

The various State Departments and Agencies submitted requests for 1962-63 to the Budget Director totaling \$591,696,477. From this sum, \$91,710,726 has been pruned in arriving at the amount recommended for legislative approval.

THE BUDGET IN BRIEF

Resources

Estimated Surplus, July 1, 1962	\$8,395,581
Estimated Revenues for 1962-63	494,262,384
Total Resources for 1962-63	<u>\$502,657,965</u>

Recommendations

General State Operations	\$222,665,439
State Aid	217,515,600
Capital Construction	59,804,712
Total Recommendations	<u>\$499,985,751</u>
Estimated Surplus, June 30, 1963	<u>\$2,672,214</u>

RESOURCES

The monthly fiscal report issued by Treasury Officials on December 31, 1961 disclosed that our Estimated Surplus on June 30 next, adjusted by supplemental appropriations passed in January, 1962, will be \$3,839,095. Estimated over-runs of revenue during the current year, together with appropriation lapses will add an additional \$7.3 million to that amount, so that we can anticipate a revised Estimated Surplus of \$11,139,095, next July 1. However, out of this sum we must reserve \$2,743,514 for supplemental appropriations in the current year. Therefore, we estimate a net Estimated Surplus of \$8,395,581 next July 1. This, I am pleased to note, compares with an Estimated Surplus a year ago of some \$1.4 million.

Present law calls for the repeal next July 1, of the 1c cigarette tax which was enacted in January, 1961 to provide initial funds for capital construction in the Department of Institutions and

Agencies. I recommend that this repeal provision be rescinded so that the proceeds of that tax can be available to balance the 1962-63 Budget. The need to amortize and pay interest on the recent educational construction bond issues, to staff and operate the resultant facilities and those financed by capital appropriations alone requires this action.

Treasury Officials estimate that the State's revenue in 1962-63 should equal \$494,262,384. Included in this sum is an estimated \$6 million yielded from the Emergency Transportation Tax assessed against New York residents working in New Jersey. Although definite earnings from this source will not be known until late in April, withholding tax collections from such sources for the third and fourth quarters of calendar 1961 indicate that the tax should produce the amount estimated.

EDUCATION

As New Jersey strives to meet its obligations to its youth, education costs continue to rise. This is as it must be. We have a rapidly expanding population which makes its needs felt at all levels of our educational system. At the College and University level, we see ever-increasing numbers of young people desirous of and qualified to seek the further training that will advance not only their personal destinies but the economic and social welfare of the entire State.

This Budget contains \$43,535,354 for the cost of higher education, including scholarships. This represents an increase of \$10,636,545. These funds will provide for a greatly increased enrollment at the six State Colleges, the State University, and the Newark College of Engineering.

Total enrollment at the State Colleges during 1963 is expected to reach 42,573 students—12,300 of them full-time and 30,273 part-time. Of this total, 10,688 will be in graduate programs. The increase in full-time enrollment of undergraduates will require 93 additional faculty members. In addition, increased emphasis is being placed on graduate study at the State Colleges. This is evidenced by a 22% increase in graduate enrollments in 1962-63. To assure accreditation, I am recommending 15 fully

State-supported faculty positions toward the support of the graduate programs at the State Colleges.

I am also recommending a total of \$527,000 for student employment at the State Colleges. Similar amounts in previous years were not reflected directly in the budget recommendations but were granted in the form of remitted fees.

At the State University, the enrollment in 1962-63 is expected to total 38,117 students, equivalent to 16,238 full-time students. To accommodate this number, I am recommending 126 additional faculty positions and 86 positions for non-academic purposes, including operation of new facilities. Funds also are added for additional equipment and supplies to permit the University to maintain its position as the capstone of public higher education in our State. I am recommending sums for use at the State University to construct a classroom building on the Douglass Campus at a cost of \$1,750,000. Funds are also provided to improve and equip the facilities at the Newark College of Arts and Sciences at a cost of \$220,000.

Of particular significance is a \$700,000 recommendation toward the installation of a 15 million electron volt tandem Van de Graff accelerator at the State University for research in low-energy physics. The accelerator, a most important research and educational tool in these days of rapidly advancing nuclear science, will cost, with its housing, more than \$2,500,000. The University will provide the balance, partly from a bequest, and partly by co-operation from industry.

Continuing our relationship with the Newark College of Engineering, with which the State Board of Education contracts for the purchase of higher education, we are appropriating sufficient sums to provide educational opportunities for New Jersey residents in the field of engineering, so vital to the New Jersey of the nuclear and space age. Approximately \$200,000 more has been recommended in 1962-63 than in the current fiscal year.

This is the first budget in which a major impact of the construction program under the 1959 State higher education bond issue will be felt. There will be a total of 40 buildings under

construction during 1962-63 of which 22 will be completed and used for at least part of the year. To maintain these buildings, more maintenance and custodial employees will be needed and substantial amounts will be required for equipment, supplies, fuel and utilities. Without these buildings, it would have been impossible for the State to accommodate the enrollments anticipated.

SCHOLARSHIPS AND LOANS

The State competitive scholarship program will embark on its fourth year in 1962-63—its first year in full operation. It will require \$3,130,750 for 9,062 scholarships and represents an increase of \$1,281,000 over the amount now appropriated. Of that number, 3,350, at a cost of \$1,155,750, will go to freshmen and the remainder will be renewals of those already awarded.

As the number of high school graduates increases over the next several years, this program will expand to as many as 12,000 scholarships, to cost as much as \$5 million in 1965, under present standards.

In addition, we expect to guarantee student loans in excess of \$1.5 million by the end of 1963. Under our present loan program, the State must set aside 20% of the outstanding loan as a guarantee to the banks in the event of default by the student. To guarantee additional loans next year, \$170,000 will be needed, making a sum of \$320,000 available for this purpose.

These programs further illustrate the determination of the State Government that every qualified student shall have the opportunity to obtain higher education if he desires.

A LOOK AT THE FUTURE IN HIGHER EDUCATION

Enrollment pressures at Rutgers, the State University; the State Colleges; Newark College of Engineering; and the private colleges are increasing year by year. As the children born in the high birth rate years of 1945 and 1946 reach college age, the pressures will become much more severe. High school graduates in 1961 totaled slightly more than 66,000 students. Of that class, 24,000 entered college, 13,200 in-state and the remainder

out-of-state. It is estimated that in 1965 approximately 85,000 students will be graduating from New Jersey secondary schools and 34,000 of them will be entering college.

In the academic year 1961-62, the State Colleges were able to accept as freshmen only 3,400 of the 5,400 high school graduates who applied and were qualified for admission. At the State University, during the same year, the freshman class totaled more than 3,200 and the University had to turn away hundreds of qualified young people for lack of facilities.

New Jersey's position is by no means unique. All of the public colleges and universities throughout the United States are feeling the pressure of the increasingly larger graduating high school classes. In the past, New Jersey has led the Nation in the migration of students out-of-state. It appears obvious that out-of-state public institutions will be unable to accommodate the same high percentage of New Jersey students as they had in the past. Legislatures of other States are placing restrictions on the number of out-of-state students which may be accepted. For us in New Jersey, this poses the problem of providing higher education facilities for our own young people. In the very near future, the State Board of Education will publish its report on higher education needs which will spell out the problem in greater detail. It is appropriate that I point this out to you now as a problem which we must solve in the future. One step in alleviating the situation would be the adoption of the Community Junior College Program. Another would be the expansion of our present University and State College system. Whatever the changes, the State must look forward to greatly increased appropriations for capital improvements and operational expenses in the area of higher education.

FACULTY SALARIES

The acute competition among the States for qualified faculty members in institutions of higher education compels New Jersey to establish more adequate salary scales in order to attract and retain competent instructors. I recommend that we adopt the proposal of the State Board of Education that the salary range be increased for all academic employees engaged in teaching.

Funds in the sum of \$350,000 are included to accomplish that proposal.

I also am recommending \$100,000 to implement the proposal of the Board of Governors of the University and the State Board of Education to permit, under certain conditions, special salary rates for Professors and Assistant Professors over and above the ranges to be established. This would permit—for certain Professors engaged in teaching graduate students—a maximum salary of more than \$15,000 for 10 months' service. Thus, we seek to assure the high quality of instruction that, more than bricks and mortar, is the foundation of an educational system.

STATE AID —EDUCATION

As I have noted, population increases are directly reflected in the rise of State aid for education. The amount recommended for this purpose is \$106,741,383 representing an increase of \$4,506,384 over the sum now appropriated. This increase includes \$2,550,081 for formula aid; added transportation aid of \$602,000; and \$293,000 for the atypical pupil program. An added \$375,000 is earmarked to expand programs for emotionally and socially maladjusted children. School building aid, also by formula, will require an increase of about \$250,000, and aid for certain libraries is increased 50% to \$600,000.

TEACHERS' PENSION AND ANNUITY FUND

The State provides the school districts' share of pension and social security costs for the teachers they employ. The amount required for such costs next year is \$47,893,974, or \$7,468,000 more than is currently appropriated. This increase is the direct result of the growth in the number of teachers and the increase in their salaries.

NEW BUILDING—SCHOOL FOR THE DEAF

I am proposing \$700,000 to build a dormitory to accommodate students who will attend the new classroom facility expected to be completed at the School for the Deaf in the Fall of 1963. I hope that the dormitory can also be ready at that time.

INSTITUTIONS AND WELFARE

The total amount recommended to support all the activities of the Department of Institutions and Agencies is \$106.3 million of which \$64.6 million is for operations of the Department, \$36.4 million is for State aid and \$5.3 million is for capital construction. The amount for general operation of the Department includes an increase of \$3.3 million. State aid accounts are increased by \$4.4 million and capital construction by \$200,000 for a total of \$7.9 million.

STATE AID

A large share of the State aid increase—amounting to \$2,750,000—is for assistance to dependent children. This is consistent with a nationally familiar pattern of a rising case load due to economic dislocations, family problems and the increasing population. In New Jersey, part of this case load rise results from a shift of recipients from the general assistance program. If case load projections are reasonably accurate, about 25 children in every thousand will require aid through this program next year.

Nonetheless, New Jersey citizens are less reliant on the various public assistance programs than most of our New England and Middle Atlantic States neighbors. For example, our dependent children recipient rate is lower than Rhode Island, Maine, Pennsylvania and New York and is the same as Massachusetts.

NEW POSITIONS

Additional positions totaling 268 are recommended to assure adequate medical services, to staff new facilities, to meet rising case loads, to improve food service, to strengthen inmate control and to extend treatment programs for a rising institutional population. One hundred seventeen of them will serve at the institutions for the mentally retarded to improve standards of care and to reduce dependence upon the retarded in residence. Special consideration is directed at upgrading patient care and treatment at New Lisbon State Colony.

SPECIAL PROGRAMS

Funds are provided for the State's mental hospitals to progress in the expansion of out-patient departments, in obtaining a more homelike atmosphere within the institutions, to better organize programs of volunteer service, and to increase medical staff time for direct patient contact. The Department is now surveying residential facilities and mental health services for children and geriatric patients, as well as the sectionalizing of our large institutions. To promote these and other studies, the Budget includes funds for a Statewide Governor's Conference on Mental Health to develop a long-range New Jersey mental health program. State funds of \$325,000, together with grants from the Federal Government, private organizations and pharmaceutical companies will continue the sound investigative work being done at the mental health research center.

With the additional funds recommended for institutions for the mentally retarded, emphasis can be directed to improve resident training, medical programs and cottage life coverage. Next year a work camp on the New Lisbon grounds will be opened to accommodate selected Bordentown Reformatory inmates who will be assigned to the food service operation. This will have many beneficial effects including substantial improvement in food service and sanitation and the provision of constructive work for inmates from an institution where over-population is most serious. The first funds are provided to plan, in advance of construction, for the opening of the new 1,000-bed Woodbridge institution moving rapidly ahead as a result of appropriated and bond issue funds. Relief from the waiting list is on the horizon—to meet perhaps the deepest family tragedies in contemporary New Jersey life.

With the passage of the recent \$40 million Bond Issue, funds were provided for crisis projects needed by this Department. Augmented by \$13.1 million from the temporary 1c cigarette tax, \$53.1 million is now available for such construction. Although these funds had been intended originally to include the cost of the first phase of a new reformatory and as a start on a second new institution for the mentally retarded, revised cost estimates for all other projects contemplated within that amount will not make it possible to finance them from these sources.

Funds for these and other important construction projects, including major reconstruction, renovation, employee housing and electrical, plumbing and water improvements, have been sought by the Department in this Budget. Lack of current funds has made it necessary to defer these and other capital requests.

With New Jersey's expanding population, it is reasonable to conclude that such improvements in the future must be provided in anticipation of needs, rather than after they become critical. While bond issues have provided New Jersey with excellent facilities in the past, we should look to the future in developing our needed capital construction on a long-range pay-as-you-go basis.

One more word: While our responsibilities in this area are burdens on the public treasury, they are, more than that, an unavoidable responsibility on the public conscience. The homeless, the friendless, the retarded, the mentally ill and even the inmates of the prisons can look only to us, the government and the people of New Jersey, for their future. If we fail them, we fail ourselves as a society—we do injustice to our self-respect.

TRANSPORTATION - HIGHWAYS

It goes, almost without saying, that safe, convenient and speedy transportation is essential to the continued economic well-being of our State. The degree of success with which we maintain and improve the arteries of commerce, will, to a great extent, determine our growth.

New Jersey's transportation problems are perhaps more complex than those of any other State. The relatively high volume of travel by out-of-state motorists, the need to move thousands of commuters each weekday, the great dependence upon heavy trucks to move goods to, through and within the State and the demands of our rapidly-growing suburban and rural areas require a well-integrated transportation program.

The fulfillment of these needs is made the more difficult and costly because a major portion of New Jersey's most urgent

transportation needs are manifested within the most heavily congested areas. This is reflected in the high cost of all phases of transportation improvements, from preliminary engineering to the finished facility.

This Budget would increase the State's financial recognition of our transportation needs beyond that accorded in the present year. Much of the increase is in direct consequence of a reduction due to programmed changes in Federal aid which, next year, will amount to \$78.5 million compared to \$84.7 million in the current year. This results from \$7.7 million less in 90-10 Federal aid. This is offset partially by an increase of \$1.5 million in 50-50 aid. The State's matching share of both programs, slightly more than \$23,000,000, increases due to the need to provide more money on a 50-50 basis and less on a 90-10 basis.

HIGHWAY CONSTRUCTION

As in recent years, \$12 million is recommended for purely State projects. The operating cost of the Highway Department's Construction and Right-of-Way Divisions, provided for in the capital section of the Budget, show an increase of \$864,000, largely due to the immediate need for additional engineers, appraisers and negotiators. The addition of 141 new jobs is necessary to expedite the construction program.

RAILROAD TRANSPORTATION AND INTERSTATE CO-OPERATION

Funds to the extent of \$6 million are recommended for the continuation of our Passenger Service Contract program at current rates and to pay New Jersey's share of the cost of the Bi-State Transportation Agency and the Tri-State Transportation Committee. It is estimated these two latter costs will amount to \$50,000 for each organization. The cost of a contract to insure continuation of the Chester-Bridgeport Ferry service, estimated at \$100,000, is also included.

I am happy to observe that we now can look for more than stopgap improvements in rail service as a result of the Port of

New York Authority's pending entry into this area with the purchase and improvement of the Hudson and Manhattan Tubes and the concomitant connection of essential commuter railroad lines.

Appropriations totaling \$2 million have already been made for grade crossing elimination projects on the Camden-Kirkwood line. It has been estimated that an additional \$1 million will be needed to complete these projects. However, since it will not be possible to expend present appropriations for such construction during the next fiscal year, I am deferring a further recommendation until 1963-64.

GENERAL OPERATIONS

To increase the efficiency of the Highway Department's general operations, this Budget recommends expenditures of \$695,000 for construction of maintenance garages and service buildings in various parts of the State, an increase of \$600,000 from the current year. The maintenance of our highway system and the operation of the Department will require an increase of almost \$1.1 million. In the past eight years, 538 lane miles have been added to the capacity of the State Highway System. Completion of major projects now under construction will throw an added burden on the Highway Department's maintenance forces. Completion of our interstate routes undoubtedly will require still greater outlay. This demand will be met as it occurs.

CONSERVATION AND ECONOMIC DEVELOPMENT

Funds in the sum of \$10,096,890 are recommended for operation of this Department and for the State aid which it administers, an increase of \$800,000. They include the State's share of \$638,417 for the cost of a greatly expanded planning program in which the Federal Government and local jurisdictions will be partners. Together with matching funds, there will be \$3 million for a concentrated joint effort to move forward in State-wide and regional planning and for a new program of long-range urban renewal planning, as well as assistance to municipalities

with master planning on a continuing basis. The new Division of State and Regional Planning, by which these programs will be administered, eventually will become one of the major divisions of my proposed Department of Urban and Suburban Affairs.

We all realize that there are no substitutes for outstanding educational institutions, efficient transportation facilities, a skilled work force, top-flight water supply, desirable residential areas and an equitable tax climate as a basic attraction to the new industry so important to our continued growth. Nevertheless, even the State that possesses these assets in abundance must make known to industry their availability. I, therefore, recommend that we increase the appropriation for promotion expenses to \$250,000, or \$50,000 more than now available. I believe that money spent in this way will contribute to the over-all growth of our State.

To better keep pace with the problems of technology, I feel we should take advantage of the tools of technology. Therefore, I am including \$70,000 for the purchase of a helicopter and \$30,000 for its operation. This equipment will be invaluable for more effective traffic and forest fire control, to aid in curbing pollution of our beaches and waterways and for other law enforcement activities. While the purchase and maintenance costs will be assessed to the Department of Conservation and Economic Development, this helicopter will be available to all departments where its use can have a beneficial impact.

Additional funds are recommended for the Division of Shell Fisheries for more effective protection and supervision of our shell fish beds. Stepped-up patrolling of polluted waters is essential for health purposes.

As we acquire open spaces out of the proceeds of the recently enacted Green Acres Bond Issue, we should be placing them in use for the recreation of our citizens. Capital funds will be required in future years to develop these lands as cabin, camp and picnic sites.

LAW AND PUBLIC SAFETY

The sum of \$20,926,805 has been recommended for the operations of this important Department, an increase of \$1.1 million.

Of this increase, \$538,000 is reflected in the Division of State Police for which I am recommending 38 additional Troopers to be assigned to general police activities and seven other employees for operation of the Division. The needs of this Division also reflect the changing pattern of our State's growth. As our population and the accompanying commercial activities of all kinds continue to move to rural and suburban areas, they create traffic control and other law enforcement problems with which those areas never before have been faced. Unfortunately, many of the municipalities in those areas have not kept pace with these problems of growth. As a result, the State Police, through sheer necessity, have had to move in to correct or prevent breakdowns in law enforcement.

An additional \$406,000 is being recommended for the operation of the Division of Motor Vehicles. It includes \$125,000 for range revision of positions in the Motor Vehicle Examiner class. This is in keeping with my pledge to recognize the need for range revision of this group of employees. This Division's Budget also reflects the gradual shift in the operational policy of the inspector force to enable it to focus attention upon driver testing and re-testing, together with special investigations, while transferring the function of road patrol to the State Police. This is a move to concentrate the skills of the inspector force upon critical human factors in safe vehicle operation. We are finding that one out of every three driver license applicants fails to pass the examination. The recommendations also include 34 new positions to accommodate an assortment of workload increases in special areas.

We should expect continuing improvement in efficiency of this Division as the result of further consolidation of its activities in its new building and from the improvement of its automatic data processing capabilities.

At the heart of law enforcement activities is the Division of Law. Here, I am recommending funds for five new positions to enforce the Consumer Frauds Law and the Home Repairs Financing Act.

LABOR AND INDUSTRY

Recommendations for this Department reflect an increase of \$773,000, making a total of \$6,916,000 available for its operations. The lion's share of this increase, or \$505,000, will permit the Rehabilitation Commission to increase its services to our disabled citizens and return them to productive life. The Federal Government will contribute 55% of the total recommendations for this Commission.

In other units of this Department, funds have been provided for increased workload, particularly in the Bureaus of Engineering and Safety and Mechanical Inspection and the Divisions of Workmen's Compensation and Disability Insurance Service. I also am including part of the funds which this Department will require to place advance orders for office equipment and furniture when it moves into its new building in 1963-64.

RETRAINING WORKERS

I have asked the Commissioner of Labor and Industry to establish an office of automation and manpower in that Department in order to give full attention to the growing problems in this field. Some Federal funds undoubtedly will be available to meet the cost of this unit. It is essential that New Jersey give high priority to training and retraining workers affected by technological changes in our dynamic economy.

DEPARTMENT OF DEFENSE

Funds in the sum of \$2,373,000 are recommended for this Department. They reflect an increase of \$150,000, primarily for the Division of Civil Defense. Through substantial participation of the Federal Government, on a matching basis, in an effective civil defense program, there will be a total sum available of \$315,000 with which this Division can better prepare plans for emergencies at all levels of government.

Capital construction and special maintenance funds also are recommended for the National Guard to expand and improve its armory facilities.

The increased activity in these areas results from factors beyond our control as a State Government. But these same factors impose on us, as Americans, corollary obligations, to take the fullest advantage of nationwide civil defense programs and to do all within our power to maintain the New Jersey National Guard in full readiness for any emergency.

DEPARTMENT OF HEALTH

To safeguard adequately the health of our people, I am recommending for health purposes \$3,750,000, or nearly 10% more than the funds made available this year. These funds include 32 new positions in such programs as environmental health, preventable disease, vital statistics and administration, drug regulation and local health. A third of the scientific equipment to be used in the new Health and Agriculture Building will require \$60,000 with which the Department can place advance orders in anticipation of completion of the building in 1964.

To intensify the study of arbor virus transmission, \$8,000 is recommended. This is a study of the relationship between encephalitis in humans, insects and other animals. Additional funds also are provided to combat a recent increase in venereal disease. With the added funds made available to this Department, more intensive work will be possible in the area of air pollution, radiation control, milk control and occupational health.

This Department has made a modest start through small grants-in-aid to local districts to strengthen health measures. The Public Health Council has indicated a desire to expand this program. This must certainly be a project to be considered in subsequent messages.

OTHER PROGRAMS

In the Department of the Treasury, funds are provided to augment assistance to local assessors during the period of adjustment to the new basis of personal property assessment outlined in Chapter 51, P. L. 1960. The funds include \$115,000 to continue the study of business personal property assessment in conjunction with that law. Added funds are provided for the Transfer In-

heritance Tax Bureau to create one more examining team. This will accelerate the assessments and collections of tax revenues from this source.

During the Spring of 1963, the Division of Purchase and Property will begin the maintenance of the Department of Education Building, the first of the new buildings in the State Capitol development program. This Budget carries \$48,000 for new employees and maintenance costs to staff and operate that structure.

The Budget also includes \$90,000 to be paid to the Teachers' Pension and Annuity Fund as part of the annual cost of rent for this building. In each of 19 subsequent years, the annual rent will be \$216,000. In the Bureau of Construction there are recommended six new positions for the greatly expanded construction programs.

Congress is presently considering an increase in postage rates. This could add as much as 25% to postage costs in this Budget. Because of this probability, I have included \$250,000 to cover such increase.

I am recommending \$500,000 for the purchase of one-half the acreage still to be obtained by the State in John Fitch Way, under its contract with the City of Trenton for further development of the State Capitol building complex.

I am also making provision for \$284,000 as a supplemental appropriation in the current year for the cost of a new cafeteria for State employees to be located between the State House and the Annex. An additional \$239,000 will provide for the redistribution of the electrical system in the State House.

Additional funds are recommended to the Department of State for the administration of two new programs which were legislated during the past year. The Youth Division, now part of the Department of State, has been granted \$35,000. This new Division will carry on and expand the work previously done by the Youth Study Commission, formerly an agency in the Legislative Branch. The administration of the Uniform Commercial Code, a section in the office of the Secretary of State, has been granted

\$25,000 for the purpose of installing the system required for the recording of certain liens and other documents previously handled by the various counties. That system will become effective on January 1, 1963. Its operating cost for the balance of the year should be met from the recording fees to be charged and I am recommending the appropriation of such fees.

To assist the Department of Civil Service in providing for the additional municipalities that have adopted civil service, increased funds in the sum of \$115,000 have been recommended.

In the Department of Banking and Insurance funds are recommended to strengthen the functions with which this Department is entrusted.

Funds are also provided to expand the activities of the Department of Agriculture and care for the additional workload.

The Tercentenary Commission is increasing its activity toward the celebration of New Jersey's 300th birthday in 1964. \$150,000 has been recommended in this Budget for the various programs in which the Commission is presently engaged and on which it will embark in fiscal 1962-63. In addition, \$500,000 is recommended as New Jersey's share of the cost of erecting a building at the New York World's Fair. This installation will have as its theme New Jersey's Tercentenary. It is expected that this \$500,000 will be augmented by a similar sum in gifts from private sources.

Funds for the operation of The Judiciary will be increased to expedite the work of the courts. Funds also are included to expand the courts' program for improvement of the county probation departments.

PENSIONS AND OTHER EMPLOYEE BENEFITS

Payments to State pension funds, including social security taxes, will require an additional \$1.2 million next year. This increase includes \$500,000 to liberalize and extend the pension increase act of 1958 so that benefits payable to members of the State Retirement Systems, who retired prior to 1955, can be adjusted for the increase in living costs.

In addition, \$4.7 million is provided in the Budget to pay merit increments of 5% to all employees who have not reached the maximum of their salary ranges. Also included is \$2 million to continue the State employees' health benefits program.

CONCLUSION

I have attempted to detail our fiscal plans for 1962-63 and have placed before you only some of the inevitable problems which we must face in the future. For a number of years, many interested citizens have been advocating a greatly expanded program of State aid for local education. It is contended that such a program is necessary if we are to control the rise in tax on real property in the local districts. Bills have been introduced in the current session of the Legislature which would increase the present State aid formula for education, not only for operating expenses in the local schools but for school construction purposes as well. Other bills have been introduced calling for State aid for other municipal services, including additional State aid to counties and municipalities for highways and for the establishment of a State aid program assisting the local communities in sewage and garbage disposal.

A recent report by the Mental Health Commission suggested possible revision of the present formula under which the State and the counties share in the operating cost of mental hospitals under their respective jurisdiction. A revision of the present formula would cost the State approximately \$8,000,000 to \$10,000,000 more per year than at present.

Most of the proposals to which I refer are directly related to the problem of either reducing or at least stabilizing the present tax on real property.

In this Message I have also pointed out the needs for capital construction on the State level which obviously will be followed by additional maintenance and operation costs. These are principally in the areas of institutions, education and conservation.

It is my firm conviction that in order to insure our future economic progress, more capital funds must be found to expand our increasingly inadequate highway system.

The Commission on State Tax Policy is presently studying the need for an increase in our current State aid for education program. As I already have announced, I propose to appoint a group of representative citizens who, together with the Commission, will make a searching study of the whole problem. This will be a very difficult task. But I do not believe we can shut our eyes to the needs outlined in this Message. When this Committee completes its work and submits its report to me, I will deliver to you my recommendations for solving the very serious problems with which we are faced and will seek your co-operation in reaching a just solution.

Respectfully submitted,

RICHARD J. HUGHES,
Governor of New Jersey.

Attest:

DOROTHY ANN SELTZER,
Acting Secretary to the Governor.

The General Assembly reconvened at 5:00 o'clock P. M.

Mrs. Hughes offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Messrs. Musto, Kijewski, Brigiani, Policastro, Lynch be made co-sponsors of Assembly Concurrent Resolution No. 1.

Assembly Concurrent Resolution No. 1 was read and

Mrs. Hughes moved that the General Assembly pass Assembly Concurrent Resolution No. 1.

The Speaker put the question, "Shall the General Assembly pass the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared Assembly Concurrent Resolution No. 1 passed.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Messrs. Savino, Keith, Gross, Moraites, Woodcock, Randall, Wanner, Musto, Kijewski, Brigiani, Policastro, Lynch, Mrs. Hughes and Mrs. Kordja be made co-sponsors of Assembly Concurrent Resolution No. 10.

Assembly Concurrent Resolution No. 10 was read and

Mrs. Higgins moved that the General Assembly pass Assembly Concurrent Resolution No. 10.

The Speaker put the question, "Shall the General Assembly pass the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared Assembly Concurrent Resolution No. 10 passed.

Assembly Bill No. 367, entitled "An act to amend and supplement the 'Law Against Discrimination,' approved April 16, 1945 (P. L. 1945, c. 169),"

Was taken up, and, on motion of Mr. Matthews was read a third time by its title, and passed by the following vote:

In the affirmative were—

Messrs. Barbour, Bateman, Biber, Bigley, Bressler, Brigiani, Crabiell, Davis (Speaker), Doren, Farrington, Frederick, Gross, Halpin, Hauser,

Hiering, Higgins, Hughes, Keegan, Keith, Kijewski, Koenig, Kordja, Krueger, Lubetkin, Lynch, Mandelbaum, Maraziti, Matthews, McCurrie, McGowan, Meloni, Miller, Minotty, Moraites, Musto, Panaro, Policastro, Randall, Richardson, Rimm, Sarcone, Savino, Sears, Smith, Stamler, Sweeney, Tanzman, Vohdin, Wegner, Wilson, Yost—51.

In the negative was—

Mr. Beadleston—1.

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the General Assembly has passed the same, and requests its concurrence therein.

Mr. Wegner, Chairman of the Committee on Revision and Amendment of Laws, reported

Assembly Bill No. 366,

Favorably, without amendment.

Assembly Bill No. 366, entitled “An act concerning civil rights and amending section 10:2-1 of the Revised Statutes,”

Was taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted by the following vote:

Pursuant to Paragraph 6 of Section IV of Article IV of the Constitution, the General Assembly does resolve that Assembly Bill No. 366 is an emergency measure and that it proceed forthwith from second to third reading.

In the affirmative were—

Messrs. Barbour, Barkalow, Bateman, Beadleston, Biber, Bigley, Bressler, Brigiani, Crabiel, Davis (Speaker), Doren, Farrington, Frederick, Gimson, Gross, Halpin, Hauser, Hiering, Higgins, Hughes, Kay, Keegan, Keith, Kijewski, Koenig, Kordja, Krueger, Lubetkin, Lynch, Mandelbaum, Maraziti, Matthews, McCurrie, McGowan, Miller, Minotty, Moraites, Musto, Panaro, Policastro, Randall,

Richardson, Rimm, Sarcone, Savino, Sears, Smith, Sweeney, Tanzman, Vohdin, Wanner, Wegner, Woodcock, Yost—54.

In the negative—None.

Mr. Matthews offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Messrs. Gross, Stamler, Maraziti, Keith and Rimm be made co-sponsors of Assembly Bill No. 366.

Assembly Bill No. 366, entitled “An act concerning civil rights and amending section 10:2-1 of the Revised Statutes,”

By emergency resolution,

Was taken up, and, on motion of Mr. Matthews was read a third time by its title, and passed by the following vote:

In the affirmative were—

Messrs. Barbour, Barkalow, Bateman, Beadleston, Biber, Bigley, Bressler, Brigiani, Crabel, Davis (Speaker), Doren, Farrington, Frederick, Gimson, Gross, Halpin, Hauser, Hering, Higgins, Hughes, Kay, Keegan, Keith, Kijewski, Koenig, Kordja, Krueger, Lubetkin, Lynch, Mandelbaum, Maraziti, Matthews, McCurrie, McGowan, Meloni, Miller, Minotty, Moraites, Musto, Panaro, Policastro, Randall, Richardson, Rimm, Rutherford, Sarcone, Savino, Sears, Smith, Stamler, Sweeney, Tanzman, Vohdin, Wanner, Wegner, Werner, Wilson, Woodcock, Yost—59.

In the negative—None.

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the General Assembly has passed the same, and requests its concurrence therein.

Mr. Halpin offered the following resolution which was read by the Clerk and adopted:

Be It Resolved, That Messrs. Rimm and Barbour be made co-sponsors of Assembly Bill No. 386.

Mr. Halpin offered the following resolution which was read by the Clerk and adopted:

Be It Resolved, That Assembly Bill No. 386 be placed back on second reading for the purpose of amendment.

Assembly Bill No. 386, was placed back on second reading for the purpose of amendment.

Mr. Halpin offered the following amendments to Assembly Bill No. 386, which were read:

Amend page 1, section 2, line 12, after the word "mean" omit "and include".

Amend page 1, section 2, line 13, after the word "association" omit the period and add "and shall include, but not be limited to any producer, dealer, packer, handler, trucker, wholesaler or retailer of eggs".

Amend page 2, section 5, line 5, after "New Jersey" omit the period and add "except, however, where State or Federal law requires the address of the packer or distributor to appear upon the container, it shall be shown in letters not exceeding $\frac{1}{8}$ inch in height".

Amend page 2, section 6, line 7, after "ings" omit "or" and substitute "on".

Amend page 3, section 9, line 3, after the first "of" insert "not more than".

Amend page 3, section 9, line 4, after "than" omit "\$500.00" and insert in lieu thereof "\$200.00".

WHEREAS, A. Bruce Cook, Editor of the Hudson Dispatch, daily newspaper of Union City, New Jersey, has distinguished himself as an outstanding creative writer with a tremendous emphasis on his inherent talent for editorial individualistic originality in the literary and journalistic field for the past forty-five years both in the States of Virginia and New Jersey; and

WHEREAS, Since the anniversary of his entry into the coveted world of American journalism fell on Monday, February 19, 1962, the New Jersey League of Weekly Newspapers, Inc., has recognized Mr. Cook's altruistic character and his ethical standards of the true spiritual co-operative democracy. At a meeting of the Board of Directors at the home of Dr. Clara K. Aszody, at One Beverly Road, West Orange, New Jersey, on February 17, 1962, a resolution was adopted in proclaiming A. Bruce Cook as the "Editor of the Year," and Mr. Cook's name has been placed in the Hall of Fame of the New Jersey League of Weekly Newspapers, Inc., for being a "man among men" whose kindness is felt. M. Martin Turpanjian, Editor of the Waldwick Jersey Parade, and North Bergen Hudson Gazette is the President of the League; Mrs. Arthur A. Lyons, Editor of Spotlight, coast-to-coast picture news weekly of Newark, New Jersey, is the Chairman of the Board of Directors; and Dr. Clara K. Aszody, Editor of the Hungarian Journal of West Orange, New Jersey, is the Chairman of the Board of Trustees; and

WHEREAS, That in our most penetrating scrutiny and philosophic evaluation of Editor Cook's gifted assets of profound erudition, the members of the New Jersey League of Weekly Newspapers, Inc., are underscoring his amazing

intellectual sensitivity and intellectuality in his editorial portrayal of the image of Democracy in its pure crystalline consistency and logical reality; and

WHEREAS, The members of the New League of Weekly Newspapers, Inc., are gratefully conscious that the glory of Mr. Cook's democratizing editorials are epitomized and enriched by the factual evidence of the radiation of the true spirit from his permanent personality appeal; and

WHEREAS, Mr. Cook was born October 19, 1898, or 63 years ago at Rahway, Union County, New Jersey. He started his newspaper career on February 19, 1917, or 45 years ago. He is highly popular among the masses and classes and possesses a dynamic personality. His editorial literary style is arresting for its rare simplicity of expression. Mr. Cook graduated from Rahway grammar and high schools. It was in high school that he first became interested in journalism, serving on the high school yearbook and the publication of the high school newspaper. His actual working press career started on February 19, 1917, or 45 years ago, when he was a reporter on the Richmond Virginian. He studied at Richmond College, now known as the University of Virginia. Immediately after enrolling in Richmond College he joined the staff of the Richmond Collegian, the weekly newspaper of the college. He was elected editor in 1920 and 1921. He also served as Editor of The Rahway Record, a semi-weekly in his home town. He is a veteran of World War I; has been a Second Lieutenant in the United States Infantry; he is a member of the American Legion of Weehawken, and the Lafayette Lodge of Masons of Rahway. He is married to the former Miss Ida M. Schmidt and resides with his wife at 1090 Briar Way, Palisade, New Jersey; and therefore,

Be It Resolved, That the General Assembly of the State of New Jersey extend to Mr. A. Bruce Cook our felicitations in rounding out the 45th year as a member of the "Fourth Estate"; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk, be sent to Mr. Cook.

The Clerk read the following message from the Governor :

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
April 2, 1962.	

To the General Assembly:

ASSEMBLY BILL No. 586

Pursuant to Article V, Section I, Paragraph 15, of the Constitution, I transmit herewith a copy of a statement which pursuant to said Paragraph 15 I appended to Assembly Bill No. 586 at the time of signing it, in which I stated the part of the item to which I objected so that such part thereof so objected to shall not take effect.

The bill in question amended the Transfer Inheritance Tax Act to increase the rates of taxation levied against the various classes of beneficiaries. The bill, in addition, would have appropriated the sum of \$250,000.00 to the Division of Taxation for the administration of the act.

I reduced the \$250,000.00 appropriation by \$200,000.00, leaving \$50,000.00 for the administration of the act.

At the time that this legislation was prepared, it was contemplated that the act would be amended in such respect as to have it applied to the transfer of property which is now exempt from taxation. During the course of discussions with administration officials and legislative leaders, it was agreed that the bill should not be applied to the transfer of property already exempt. Because of this change, it will not be necessary for the Division of Taxation to expend more than \$50,000.00 for the administration of the act.

For this reason, I exercise my authority under said Paragraph 15 of the Constitution to reduce the appropriation to \$50,000.00.

Respectfully submitted,

[SEAL]
Attest:

RICHARD J. HUGHES,
Governor.

LAWRENCE BILDER,
Acting Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

ASSEMBLY BILL No. 10

To the General Assembly:

I herewith return Assembly Bill No. 10, without my approval, for the following reasons:

This bill would add to the State highway system the portion of Cape May county road No. 585 which extends from Route No. 9 at Burleigh to the northeasterly line of North Wildwood.

The State of New Jersey now has the responsibility for State Highway No. 9 which traverses the length of Cape May County. It also maintains State Highway No. 47 which is 3 miles south, and parallel to the county road in question. Route No. 47 provides direct access to the City of Wildwood.

It is the responsibility of the State to maintain and develop a system of roads which will provide the traveling public with a safe and speedy means of transportation throughout the State. In order to meet this responsibility, the State must direct its efforts to those roads which serve State traffic primarily rather than local traffic. The development and maintenance of roads to move local traffic has traditionally been the function of our municipalities and counties. It is, of course, always difficult to determine whether the predominant function of a road is to serve local or State traffic. This determination is even more difficult in a county such as Cape May which occupies a terminal position in our State.

Nevertheless, I am of the opinion that it would not be in the best interest of the general public for the State to

assume the cost responsibility of maintaining this road. This same bill was vetoed once before in 1957. At that time, the State Highway Department estimated that it would cost the State at least \$4 million to modernize this road. In addition, I have been informed by the State Highway Department that it is already, as of this date, under direction to add to the State highway system a total of 1,128 miles of road which it is presently unable to assume because funds are not available. The cost to the State of modernizing those roads to meet State Highway standards is estimated to be \$2,820,000,000. Even minimum improvements would cost \$1 billion.

Considering the expense involved in assuming this road and the fact that the Legislature has not yet begun to provide the revenue necessary to permit the State Highway Department to add previously authorized local roads to the State system, I feel constrained to return this legislation without my approval.

ASSEMBLY BILL No. 42

To the General Assembly:

I herewith return Assembly Bill No. 42, without my approval, for the following reasons:

This bill is a companion measure to Assembly Bill No. 43 which I have also returned to the Legislature today without my approval. Assembly Bill No. 42 would reduce from \$200.00 to \$100.00 the penalty payable by a corporation

which has failed to file in the Office of the Secretary of State a certificate setting forth any change in the location of the principal office of a corporation or the name of a new agent upon whom process may be served.

I have been informed by the Office of the Secretary of State that there has been widespread disregard of these statutory provisions. I can, therefore, find no justification for reducing the penalty for non-compliance with these provisions. The public is entitled to have this information concerning the corporations with which it must deal. Any corporation which fails to provide this information must expect to be subjected to a reasonable penalty. Considering the present state of non-compliance with the law and the inconvenience and expense that this non-compliance causes both the State and the general public, I cannot conclude that the existing \$200.00 penalty is unreasonable.

ASSEMBLY BILL No. 43

To the General Assembly:

I herewith return Assembly Bill No. 43, without my approval, for the following reasons:

The law concerning corporations doing business in this State requires such corporations to file an annual report setting forth certain specific information as to the operations of the corporation including its name and location, the character of its business, the amount of authorized and issued capital stock, and the names and addresses of the directors and officers of the company. Assembly Bill No. 43 would reduce from \$200.00 to \$100.00 the penalty payable

by a corporation which has failed to file this annual report in the Office of the Secretary of State.

I have been informed by the Office of the Secretary of State that there has been a continual and widespread disregard by corporations of this requirement to file annual reports. In 1958-1959, only 12,000 of the 95,000 corporations in this State filed such a report. Following an extensive campaign which cost the State \$40,000.00 the number of reports filed was increased to 64,000 in 1959-1960. Unfortunately, it appears that the effect of this campaign has already worn off. Only 25,000 reports were filed in 1961-1962.

In the face of this widespread disregard of statutory requirements, there can be no justification for reducing the only existing incentive there is for corporations to comply with the law. So long as it is deemed to be in the public interest to have available the information required to be contained in the annual reports of corporations, it will be necessary to maintain an effective penalty for non-compliance with the statute. Based on past experience, the present penalty level can hardly be considered to be excessive.

If the Legislature has concluded that these reports no longer serve a useful function, the proper approach would have been to eliminate the filing requirement itself rather than reducing the penalty for non-compliance with this requirement. I would point out, however, that the requirement for filing an annual report does not place an undue burden upon any corporation which seeks to do business in this State. The information required of such corporation is minimal. In addition, such information should be available if the general public is to have any concept of the true identity of these corporations with which it must do business on a day-to-day basis.

Respectfully,

RICHARD J. HUGHES,

Governor.

ASSEMBLY BILL No. 246

To the General Assembly:

I herewith return Assembly Bill No. 246, without my approval, for the following reasons :

Under present law, local boards of education are authorized to exclude from the schools any teacher or pupil who has not been successfully vaccinated or revaccinated against smallpox, or immunized against diphtheria; however, each board is given discretionary power to exempt from vaccination and immunization requirements any teacher or pupil who objects on the basis of religious beliefs.

This bill would remove the boards' discretionary powers with respect to vaccination and immunization and would make exemption mandatory in any case where a teacher, or the parent or guardian of a minor pupil, entered objection in writing on the grounds of interference with the free exercise of religious principles.

I am mindful of the rights of all our citizens to practice freely their religious beliefs. I have grave concern, however, over the potential impact that this legislation would have, if enacted, on the public health and welfare. That concern has not been lessened by the fact that just within the past few months, we have seen a number of incidents involving the importation of suspected smallpox cases which resulted in potentially dangerous conditions invoking public alarm and inconvenience and the need for emergency action.

As a consequence of exposure to two suspected smallpox cases involving children coming to this country from Brazil and India, some forty New Jersey residents had to be kept under daily surveillance by health authorities during the month of September. Three recent smallpox scares of major proportion in the metropolitan New York area resulted in emergency mass vaccination of over 12,500 individuals within one month. Another case in British

Columbia, involving a Thailand student, required inoculation of 750 of his schoolmates.

A report of experience in England subsequent to the recent relaxation of that country's compulsory vaccination law has pertinence in any consideration of this proposal. In a one-month period, from December 16, 1961 to January 13, 1962, 82 individuals contracted smallpox, and 8 of them died from its effects, as a result of exposure to 7 imported cases of the disease.

Weighed against the awful possibilities suggested by these statistics, the burden of an unwanted vaccination in the interest of the public welfare seems a small thing to ask of any citizen.

Such reports as have been directed to my attention by the State Department of Health indicate that smallpox is highly contagious in a literal sense and that even a casual exposure can result in infection of susceptible people. In a given case, the degree of immunization resulting from vaccination is relative and depends upon the dose of the infecting agent, the time since previous vaccination and individual resistance factors which apparently may vary from time to time. Control and ultimate eradication of the disease clearly demands a high level of immunization among the citizenry. It is a fact that we are now less than 36 hours flying time from chronic centers of smallpox infection throughout the world and that our best protection against the serious consequences of introduction of this dread disease into New Jersey is a constant high level of immunity in all people. Each of us has a community responsibility extending beyond our own protection.

I am not unaware of the argument advanced by proponents of this bill that school boards in a number of New Jersey communities readily grant such exemption upon request, and that it is in only a few of our cities and towns that difficulty is encountered in persuading the local school board to exercise its discretionary power of exemption. I nevertheless cannot in conscience affix my signature to a measure which would make such exemption mandatory in every case regardless of existing circumstances.

Involved here is not alone the precautionary immunization shot at the time of entering school when virulent disease is only a remote possibility. No doubt exemption

from this requirement can safely be given in the exercise of a responsible group's discretion upon review of existing conditions. Mandatory exemption, however, if enacted into law, would not only remove the safety valve of review and discretionary action in those cases but would effectively block any subsequent withdrawal of exemptions previously granted when emergency conditions dictated the necessity for such action.

For these reasons, I believe the public welfare will be best served by maintaining the law on this subject in its present posture.

ASSEMBLY BILL No. 479

To the General Assembly:

I herewith return Assembly Bill No. 479, without my approval, for the following reasons:

This bill provides that the holder of a driver's license can be required to submit to re-examination after a motor vehicle accident only if the court or the Division of Motor Vehicles, after a hearing, determines that he was responsible for or contributed to the accident.

As Governor, I have been vitally concerned about the number of motor vehicle accidents in this State. Last year, we had almost 126,000 accidents resulting in the death of 779 persons and the injury of nearly 80,000. In comparison, the first quarter of this year indicated that the rate of

injuries resulting from motor vehicle accidents has increased by 16.9% and that to date there has been an approximate 15% increase in the number of deaths occurring as a result of such accidents.

In an effort to combat this increase I have stressed throughout the past year the need to strengthen our traffic safety program. Emphasis has been placed on preparing legislation to make a proper and effective educational program a prerequisite for securing a license; to increase truck safety requirements; and to tighten the law directed at drivers who drink. In addition, my administration has supported pending legislation, such as implied consent to drunkometer tests. These proposals warrant prompt attention. Along with supporting such legislation, an intensive campaign has been conducted to convince New York of the necessity for increasing its minimum age for alcoholic consumption to 21.

As part of a continuing traffic safety program, the Division of Motor Vehicles, since 1952, has operated several accident prevention clinics. Pursuant to his statutory authority, the Director of Motor Vehicles has promulgated certain standards to be used in determining which drivers should be re-examined at these clinics. These drivers are then tested in order to determine their ability to safely continue to operate a motor vehicle. Where deficiencies are discovered, they are explained to the driver and corrective measures are suggested. The purpose of these clinics is educational, their objective is driver improvement. New Jersey, as the pioneer of this type of program, can take justifiable pride in its many traffic safety accomplishments.

At present, a driver may be required to be re-examined if he falls in any of the following categories:

1. Persons involved in two or more traffic accidents within a period of 12 months.
2. Persons involved in a traffic accident resulting in a fatality where a violation of the traffic regulation provisions of Title 39 is established.
3. Persons involved in one traffic accident having a record of two or more convictions for moving traffic violations within a period of 12 months.

4. Persons eligible to the restoration of their driving privilege after a conviction of operating or permitting another person to operate a motor vehicle while under the influence of intoxicating liquor or any narcotic or habit producing drug, as provided in L. 1952, c. 286 (R. S. 39:4-50).

5. Persons having either a mental or physical deficiency which may affect their safe operation of a motor vehicle.

6. Persons who have a driving record, involving two or more traffic accidents or moving violations, which indicates a need for re-examination to determine if they are capable of operating a motor vehicle with safety to themselves and to other users of the highways.

This bill would substitute "responsible for, or contributed to" for these standards. It would ignore all other categories although the persons who fall within them have as great a need for re-examination. In addition, it would create an unnecessary delay between the accident and required clinic attendance, as well as increasing the cost of the program.

Most important of all, as Governor Robert B. Meyner said last year when he vetoed a similar bill: "The requirement of a determination of fault would tend to stamp the clinic program as punitive in the mind of those called to attend, and it would tend more than ever to become something to be endured rather than to be benefited from".

I am satisfied with the present operation of our accident prevention clinics. These clinics, operating pursuant to regulations promulgated by the Director, are flexible enough to reflect future changes in conditions and additional information as it becomes available. Therefore, I see no need for this type of legislation.

ASSEMBLY BILL No. 644

To the General Assembly:

I herewith return Assembly Bill No. 644, without my approval, for the following reasons:

This bill directs the Attorney General to sell to the highest bidder at a public auction certain parcels of land with the improvements thereon located on Prospect Street in the City of Trenton.

The purpose of this bill as stated in its title is to sell "certain surplus State-owned lands and buildings". The conclusion that this property is "surplus", I presume, is based on the fact that the Director of the Division of Motor Vehicles recently ceased using the property for a Motor Vehicle inspection station.

I have been informed by the Attorney General, however, that this property is still being used by his Department and that he wishes to retain title thereto. Currently, the property is being employed as a garage and storage depot. In addition, the Division of Weights and Measures has leased a part of this property from the Division of Motor Vehicles and has formulated plans to use the building in the near future as a heavy-duty testing laboratory. In view of these plans, there is no justification for selling this property at this time.

I am, accordingly, returning Assembly Bill No. 644 herewith without my approval.

permission from his superior officer. The latter regulation is in recognition of the ministerial function performed by constables attending upon the courts. *Cor v. Passaic Common Pleas, supra*, at p. 329.

“By contrast, a jail keeper has been defined in the Civil Service specifications as one who: ‘Under direction, during an assigned tour of duty, guards inmates and assists them toward rehabilitation; does related work as required.’ According to a manual prepared for the use of jail keepers by defendant, they are required to work in three shifts, which encompass a period of 24 hours a day. * * *

“The office of jail keeper was one well-known to the common law. *Bownes v. Meehan*, 45 N. J. L. 189, 193 (Sup. Ct. 1883). No case has been called to our attention in which the duties of court attendant and jail keeper were regarded as equivalent. On the contrary, the positions have been separately referred to in a number of legislative enactments.”

I believe that this description by the Court adequately explains the reasons for my disapproving this legislation. It would be clearly inequitable to compel an employee who was hired to perform the duties of a particular position, for which position he was required to meet certain standards, to perform responsibilities totally unlike those for which he was hired and for which he might have neither the aptitude nor the qualifications. If it is necessary for county government to employ personnel to carry out the functions of court attendant and county jail personnel, then a position providing for such employment should be established with entrance and training requirements that would qualify the holder of such a position to carry out his duties in a competent and responsible manner.

ASSEMBLY BILL No. 16

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 16, with my objections, for reconsideration.

Assembly Bill No. 16 provides that a board of chosen freeholders granting financial assistance to a junior college in the county "shall be entitled to apply for and receive State support toward such county financial assistance". The bill specifies that the board of chosen freeholders may apply to the State Board of Education and receive, for the use of the county, State support to the extent of $\frac{1}{2}$ the annual amount appropriated and paid by the county for junior college support or \$200.00 per full-time student who is a resident of the county, whichever is the lesser amount.

In my Inaugural Address, I pointed out that a new emphasis must be given to higher education. The State has already begun to provide this emphasis through the adoption of the County Junior College Act, c. 42, P. L. 1962. Assembly No. 16 is a companion measure to the County Junior College Act. It provides necessary State financial assistance to junior colleges which are county supported but not county operated. In principle, it is a measure which deserves full support. Unfortunately, the provisions of Assembly No. 16 are deficient in several important respects. For example, the bill does not require that State moneys granted to the counties actually be spent for educational purposes. Funds granted to a county are merely designated for the use of the county. In addition, the bill does not grant even minimum supervisory powers in the State Board of Education although the operation of county junior colleges seeking State assistance is subject to the State Board's rule making power.

Accordingly I herewith return Assembly Bill No. 16 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, line 2, preceding "junior college" insert "qualified".

On page 1, section 1, line 4, delete "any law heretofore or hereafter enacted," and insert in lieu thereof "c. 43, P. L. 1941, as the title and body of said act were amended by c. 30, P. L. 1947, or c. 42, P. L. 1962,".

On page 1, section 1, line 5, following "apply" insert "to the State Board of Education"; following "and" insert "may".

On page 1, section 1, lines 5 and 6, delete "such county financial assistance" and insert in lieu thereof "the operational costs of such junior college".

On page 1, section 1, line 6, following "with" insert "the provisions of".

On page 1, section 1, line 6, add the following two paragraphs to the end of section 1 as part thereof:

"The county's application shall be upon forms prepared and provided by the State Board and shall contain such information as the State Board shall require to carry out the provisions of this act. Each application shall contain a certification by the county board of chosen freeholders that the higher educational requirements of the county and surrounding areas makes it necessary and in the public interest for the county and State to provide financial assistance to the junior college for which State support is sought.

"For the purposes of this act, a 'qualified junior college' or 'qualified county-assisted junior college' shall mean a junior college, other than a junior college established pursuant to the provisions of c. 41, P. L. 1962, which is certified annually, on or before January 31, by the Commissioner of Education to the State Treasurer to be operated in accordance with the applicable rules and regulations relating to the operation of county junior colleges which have been adopted by the State Board pursuant to the provisions of chapter 41, P. L. 1962."

On page 1, section 2, lines 4 and 5, delete “and in accordance with rules and regulations prescribed by the State board”.

On page 1, section 2, line 5, following “freeholders” insert “of any county having a qualified county-assisted junior college”.

On page 1, section 2, line 6, delete “for the use of the county”.

On page 1, section 2, line 6, delete “to the extent of $\frac{1}{2}$ ” and insert in lieu thereof “for the operational costs of such junior college in an amount equivalent to”.

On page 1, section 2, line 7, following “amount” insert “last”.

On page 1, section 2, line 9, delete “said county” and insert in lieu thereof “the State”.

On page 1, section 2, line 9, add the following paragraph to the end of section 2 as part thereof:

“Funds paid to a board of chosen freeholders pursuant to the provisions of this act shall be used by said board only for the purpose of paying the operational costs of the junior college and shall be paid to the junior college in the manner prescribed by the State Board. Such funds that are unexpended at the end of a fiscal period shall be returned by the county board to the General Treasury of the State unless the State Board and the Director of the Division of Budget and Accounting of the Department of the Treasury shall otherwise direct.”

On page 1, section 2, line 9, at the end of section 2 add the following new section:

“3. The State Board of Education may adopt such rules and regulations as shall be necessary to implement the provisions of this act.”

On page 2, section 3, line 1, delete “3.” and insert in lieu thereof “4.”

On page 2, section 3, lines 1 to 7, delete “but shall not become operative unless and until the enactment of ‘An act concerning education, authorizing the es-

tablishment of county colleges, providing for their operation and control by a board of trustees, and providing for the method of financing and raising the necessary funds, in any county or counties which by referendum shall authorize the same,' now pending before the Legislature''.

ASSEMBLY BILL No. 57

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 57, with my objections, for reconsideration.

This bill would provide additional State aid to school districts in which 2 or more per cent of average daily enrollment consists of pupils certified to be residing in the district on property owned by the State.

Traditionally, the State has given aid to such school districts in order to compensate the district for the revenue it would get from the local government if the State land were taxable. Since the establishment of the foundation program, pursuant to the State Aid Act of 1954, districts having such pupils receive the maximum amount of aid, \$100.00 per pupil, without a local fair share deduction. This bill would provide additional State aid equal to the average cost of education in the State less the present aid. That would amount to approximately \$300.00 additional per pupil

and I have been informed that it would cost the State a minimum of \$75,000.00 per year.

It has been argued that the present school aid provided is insufficient inasmuch as, although the cost of education has increased over the years, the State aid formulas have remained stable since 1954. To the extent that such conditions prevail, the excess cost of the education of pupils living on State land becomes a burden upon the citizens of the community. This is a situation of concern to all of us. While I am sympathetic to the purpose of this bill, I am also forced to recognize the fact that sufficient finances are not available at present to provide the full increase in aid called for by this bill. Therefore, I recommend that the bill be amended to increase by 100% the present aid given to these districts for each such pupil.

Accordingly, I am returning Assembly Bill No. 57 for reconsideration, with the recommendation that the bill be amended as follows:

On page 1, section 1, line 5, after the word "taxable." insert "This act shall not apply to school districts which receive from the State or any of its political subdivisions or agencies, a fixed amount in lieu of taxes."

On page 1, section 2, line 1, delete "The" and insert in lieu thereof "For each such pupil residing on property owned by the State, the".

On page 1, section 2, line 2, after the words "shall be" insert the words "equal to".

On page 1, section 2, lines 2 to 4, delete "by which the average cost of elementary or secondary education in the State, as the case may be, exceeds the amount per pupil".

ASSEMBLY BILL No. 303

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 303, with my objections, for reconsideration.

This bill would amend the law prohibiting minors from entering any licensed retail liquor establishment for the purpose of purchasing or consuming any alcoholic beverage and from purchasing or consuming said beverage or misstating their age in order to do so. It would increase the penalty on conviction from a fine "not exceeding \$50.00" to a fine "of not less than \$100.00 and not exceeding \$200.00", and would require peace officers and alcoholic beverage enforcement officers to make complaints and to prosecute or assist in the prosecution of any minor who violates this statute.

The problems created by minors who violate the alcoholic beverage laws have been given close attention by my administration. A series of proposals tightening the laws directed at the driver who drinks have been prepared and are now ready for introduction. The campaign to have the State of New York conform its minimum age for consumption of alcoholic beverages to that of its neighbors is awaiting the decision of the New York Legislature. I approach legislation such as Assembly Bill No. 303, therefore, from a sympathetic viewpoint.

I am in full agreement, for example, with the provisions of the bill which provide for an increased fine for the violators of this law. A greater fine should help deter minors from seeking to consume alcoholic beverages in public places. The provision of Assembly Bill No. 303, however, which would eliminate the discretion now residing in law enforcement agencies as to the prosecution of minors, while commendable as to intent, is not likely to improve law enforcement efforts.

Apprehension of the minor who violates the alcoholic beverage law is but one part of the problem. Prosecution of those adults who willingly supply such minors with alcoholic beverages is an even more important aspect of the problem.

Our law enforcement agencies have found the minor to be an essential witness in any criminal or disciplinary prosecution of a licensee who may be charged with sale to a minor. It has also been our experience that when minors are prosecuted, the case the State may have against the licensee often cannot be proved. It is readily apparent that a minor would be inhibited from testifying against the licensee if he is also under the threat of prosecution. He could properly refuse to testify by recourse to the constitutional protection against self-incrimination. This is not to state that there are not instances where the minor should be prosecuted and punished. The decision as to the best procedure to be followed, however, should be left in the hands of our enforcement officials and not predetermined by legislative fiat. The practical experience our law enforcement officials have gained through many years of enforcing this law justifies the decision to leave to the discretion of such officials the question whether prosecution of a minor is the appropriate course to follow.

Accordingly, I am returning Assembly Bill No. 303 for reconsideration, with the recommendation that it be amended as follows:

On page 2, section 2, lines 1 through 5, delete this section in its entirety.

On page 2, section 3, line 1, delete the numeral "3" and insert in lieu thereof the numeral "2".

ASSEMBLY BILL No. 491

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 491, with my objections, for reconsideration.

Assembly Bill No. 491 is designed to permit certain public officials to hold more than one public office concurrently, even though duties and responsibilities of the offices might be deemed to be incompatible under the common law. Specifically, the bill would permit a member of the Legislature to also hold elective or appointive county or municipal office or position. In addition, it provides that any person holding county office shall be eligible for election or appointment to any municipal office. Conversely, a municipal official would be eligible to hold a county elective or appointive office.

Impetus has been given to this legislation by recent judicial decisions concerning the incompatibility of holding certain offices at different levels of government. In addition, there are now pending before the courts several suits to determine whether it is permissible for one person to hold certain specific offices at the same time.

The prohibition against dual officeholding is not constitutional in its base, nor indeed statutory in origin. It arises from the common law. The common law doctrine does not prohibit dual officeholding as such, but only the holding of offices, the rights, duties and obligations of which are incompatible with each other. This doctrine, however, may be extended or restricted by legislative action. For example, R. S. 19:3-5 provides that no person shall hold at the same time more than one of a number of specific offices listed therein.

I am in accord with the purposes of this bill to the extent that it would modify the common law doctrine to permit members of our Legislature to come from the ranks of our county and municipal officeholders and employees. The Legislature's responsibilities must, of necessity, touch upon

all phases of governmental activity. A liberal construction, therefore, of the duties of the Legislature could effectively prevent all or most of our public officials or employees from serving in this important deliberative body. For example, it could be argued that school teachers should be barred from the Legislature because they would be required to pass upon legislation that would have an effect upon the school system.

During the years that the common law doctrine of prohibiting the holding of incompatible offices was evolved, relatively few people were engaged in the business of government. Strict enforcement of the common law doctrine, therefore, would not have deprived legislative bodies of the talents and experiences of a large number of people. This would not be true today, however, since the business of government occupies the activities of many of our citizens.

In New Jersey, we rely upon individuals to serve in the Legislature as a part-time duty. They are expected to derive their livelihood and that of their families from other activities, public and private. Application of the common law doctrine to this area could effectively remove from legislative deliberations all persons connected with public life. This could only work to the ultimate detriment of the general public.

The bill, however, goes beyond the provisions relating to legislators. It attempts to authorize the holding of elective or appointive offices by persons who already are holding elective or appointive offices at a different level of government. To the extent that the bill would validate the concurrent holding of more than one elective office, I find it acceptable. A person who holds elective office must periodically submit to the people an accounting of his stewardship. His dual officeholding is open for all to see and can be terminated whenever his constituents so decide. The values to be gained by permitting one person to bring to several elective offices the experiences garnered from each, more than offset any theoretical incompatibility which might exist between such offices. This is especially true because the people have sanctioned such a result, and it continues to exist only with their approval.

The reasoning which would justify dual officeholding by legislators and other elected officials cannot be extended, in its fullest sense, to local officials who hold appointive offices

or positions. For one thing, the public may not be aware that a single individual is holding two offices which have duties and responsibilities potentially or actually in conflict. Moreover, the possibilities for the existence of actual rather than theoretical incompatibility of office are infinitely increased by extending the provisions of this bill to the numerous appointive offices and positions that exist on our county and municipal levels of government. A mayor or a municipal assessor, for example, under this bill in its present form, also could serve on the county tax board, an obviously incompatible situation. Considering the very real possibilities for actual conflict, I can find no overriding justification for permitting local officeholders or employees to hold an additional office or appointive position where incompatibility does in fact exist between the duties and obligations of such offices and positions.

It should be remembered, however, that the common law doctrine does not bar the holding of more than one appointive position where this element of incompatibility does not exist. My action on this bill, therefore, should not be construed to reflect on the right of persons to hold appointive offices or positions concurrently where incompatibility does not exist.

Accordingly, I am returning Assembly Bill No. 491 for reconsideration, with the recommendation that the bill be amended as follows:

On page 1, title, lines 1 and 2, delete "officers and employees" and insert in lieu thereof "the dual holding of offices and positions".

On page 1, section 1, lines 1 to 7, delete section 1 in its entirety and insert in lieu thereof:

"1. It shall be lawful for a person to hold simultaneously an elective county office and an elective municipal office."

On page 1, section 2, lines 1 through 4, delete the first sentence of the section in its entirety.

On page 1, section 2, line 4, delete "Membership in" and insert in lieu thereof, "It shall be lawful for a member of".

On page 1, section 2, lines 4 and 5, delete "shall not be incompatible with any" and insert in lieu thereof,

“to hold simultaneously any elective or appointive office or position in”.

On page 1, section 2, line 5, delete “elective or appointive office” and insert in lieu thereof “government”.

On page 1, section 3, lines 1 through 3, delete “preclude a member of the board of chosen freeholders of a county or a member of the governing body of a municipality or a member of the Legislature” and insert in lieu thereof, “prevent the incumbent of any office”.

On page 1, section 3, line 4, following “voting” insert “in any matter in which he believes he has a conflict of duty or of interest,”.

On page 1, section 3, line 4, delete “the” and insert in lieu thereof “to prevent a”.

On page 1, section 3, lines 4 through 9, starting with and including “, on any measure predicated upon”, delete the remainder of the section and insert in lieu thereof, “on that account under the principles of the common law or any statute.”

On page 2, section 4, line 1, delete section 4 in its entirety and insert in lieu thereof:

“4. (a) Nothing herein contained shall be deemed to repeal or supersede any statute prohibiting the dual holding of offices or positions.

“(b) This act shall apply to persons now holding elective offices or positions with the counties and municipalities or now serving as members of the Legislature of the State.

“(c) For the purposes of this act the term ‘elective office’ shall mean an office to which an incumbent is elected by the vote of the general electorate.”

ASSEMBLY BILL No. 492

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 492, with my objections, for reconsideration.

Assembly No. 492 provides that any distributor of newspapers, magazines or other publications, or any agent, officer or employee thereof, who sends, distributes or delivers to a retail dealer any publication which had not been delivered pursuant to a written order specifying the title or titles desired, is a disorderly person.

This bill is one of three legislative proposals passed this session that are concerned with the problem of obscene publications. Two of these bills, Assembly No. 8 and Senate No. 84, I have already approved.

There is near universal agreement on the proposition that the sale and distribution of obscene publications is detrimental to the general welfare and should be eliminated. This proposition is constitutionally as well as morally sustainable. As the United States Supreme Court has noted "it has been accepted as a postulate that 'the primary requirements of decency may be enforced against obscene publications.' " *Kingsley Books, Inc. v. Brown*, 354 U. S. 436, 440 (1957).

It is, therefore, fitting and proper for government to join with its citizenry in a war against obscenity so long as we are mindful that we do not trample protected rights of free expression in our zeal to eradicate obscene publications.

Senate Bill No. 84, through its adoption of a definition of "obscenity" which has been laid down by the United States Supreme Court, provided a legal standard against which our citizens could test their conduct and behavior. Such a definition is essential if we are to maintain a meaningful distinction between obscenity and the constitutionally established right of freedom of expression.

Assembly Bill No. 8, by providing a civil method for testing whether certain publications are obscene, permitted law enforcement officials to proceed diligently against obscenity wherever found, while protecting the constitutional rights of our citizens. It therefore struck a necessary balance between the rights of the public and the rights of individuals.

Unfortunately, I cannot conclude that Assembly No. 492 strikes such a balance. The restrictions against the distribution of any printed matter to retailers unless first ordered by them in writing is unnecessarily broad and of doubtful validity. Similar restrictions of the right to distribute publications have been stricken down by the courts as an infringement of freedom of the press, which would be the probable fate of this bill if signed in its present form.

The stated purpose of this bill indicates that it is intended to relieve retail dealers of the burden of handling and storing unwanted publications. In the considerable mail I have received on this proposal, I do not recall seeing a single letter from a retail dealer seeking such protection in the form provided by Assembly Bill No. 492. The only representative of retail dealers who appeared before the Legislative Commission to Study Obscenity in Certain Publications at its public hearing on Assembly Bill No. 492 called the proposal "definitely unworkable".

Unquestionably, the enactment of Assembly Bill No. 492 would seriously hamper the distribution of all publications whether obscene in character or not. As the Commission itself has noted, a retail dealer cannot possibly be familiar with the various publications available for distribution before he receives them. Few of the thousands of books and periodicals that are distributed annually are of an obscene character. Yet, under the bill in its present form, no publication, however innocent, even newspapers, could reach the retailer and ultimately the general public unless first ordered in writing by name. The bill, therefore, would deny the public free access to many fine books and periodicals, including new ones which come on the market from time to time. The way to encourage decent literature and to discourage obscene literature is not to inhibit the distribution of all literature but to permit newsdealers to refuse to carry those publications which they find to be inappropriate for their type of business activity.

I believe that the problem which Assembly Bill No. 492 seeks to resolve, the mechanical distribution of publications without regard to content, can be eliminated without completely destroying our present distribution methods and all that they mean to the principle of free speech. A dealer becoming aware of the receipt of publications he does not wish to handle should have the right to warn the distributor, by notice in writing, not to deliver such publications henceforth, and to compel the distributor to pick them up from his store at an early convenient time. Assembly Bill No. 492 should be amended, therefore, to prohibit the delivery of any publications to a retail dealer which that dealer has specified in writing he does not wish to receive. I also recommend that the distributor assume the inconvenience and expense of prompt removal of any offensive publication which he has, whether intentionally or not, delivered the dealer.

These recommendations will enable each local dealer to handle such type of publications as his conscience and his respect for the community he serves shall dictate. Such provisions would seem to me to be entirely effective for the protection of the dealer without restricting the free distribution of worthwhile publications. This is especially true since there is already a law on the books inhibiting the "tie-in" sales of unwanted publications by a distributor. Such sales could have otherwise been used to coerce the dealer into handling the offensive as the price of receiving decent publications.

Accordingly, I am returning Assembly Bill No. 492 for reconsideration, with the recommendation that the bill be amended as follows:

On page 1, section 1, line 1, delete "Any" and insert in lieu thereof "No".

On page 1, section 1, lines 1 and 2, delete ", or any agent, officer or employee thereof,".

On page 1, section 1, line 2, delete "newspapers" and insert in lieu thereof "books".

On page 1, section 1, lines 3 and 4, delete "who sends, distributes or delivers to" and insert in lieu thereof "after notification in writing by".

On page 1, section 1, line 4, after "dealer" insert "not to send or deliver to such dealer".

On page 1, section 1, lines 4 to 6, delete "which had not been delivered pursuant to a written order specifying the title or titles desired, is a disorderly person" and insert in lieu thereof "shall send or deliver to such dealer such book, magazine or other publication".

On page 1, section 1, line 6, at the end of section 1, insert the following new section:

"2. Any person, firm or corporation which fails to comply with the provisions of section 1 of this act, after oral or written notification of such failure to comply by a retail dealer, shall forthwith remove from the possession of such dealer the book, magazine or other publication which was improperly delivered without cost or charge to the dealer. Any person, firm or corporation failing or refusing to remove such publications by the end of the second business day following notification of improper delivery shall be a disorderly person and shall be subject to a fine of not less than \$500.00 or imprisonment for 30 days or both."

On page 1, section 2, line 1, delete "2" and insert in lieu thereof "3".

ASSEMBLY BILL No. 515

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 515, with my objections, for reconsideration.

Assembly Bill No. 515 amends Section 11 of the Law Against Discrimination to provide that it shall be an unlawful discrimination for a labor organization to discriminate against any applicant for, or individual included in, any apprentice or other training program because of his race, creed, color, or national origin.

This is commendable legislation and I strongly support its enactment. Unfortunately, should I sign this bill in its present form, my action could be construed as invalidating the pioneering law against discrimination in employment because of age which was enacted earlier this year. That law, as set forth in Assembly Bill No. 601, also amended Section 11 of the Law Against Discrimination. Since these two bills were processed simultaneously, neither of the bills incorporated the amendatory language provided by the other. Approval of Assembly No. 515, therefore, would establish the text of Section 11 of the Law Against Discrimination in a form not containing the amendatory language enacted in Assembly No. 601. In order to avoid any possible legal question, I am recommending that the Legislature re-enact this measure setting forth the language which has already been placed in the statutes by the enactment of Assembly No. 601.

Accordingly, I am returning Assembly Bill No. 515 for reconsideration, with the recommendation that the bill be amended as follows:

On page 1, section 1, line 5, delete "or" and insert in lieu thereof a comma.

On page 1, section 1, line 6, after "ancestry," insert "or age".

On page 1, section 1, line 15, after “origin” delete “or” and insert in lieu thereof a comma; after “ancestry,” insert “or age”.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
November 19, 1962. }

ASSEMBLY BILL No. 470

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 470, with my objections, for reconsideration.

This bill would amend R. S. 41:1-3 of the Revised Statutes which sets forth the oath of office required of all public officers, counsellors and attorneys-at-law. It purports to make changes in the form of the statutory language, rather than any substantive changes, in the interest of "clarity, brevity and dignity."

As is well known, the Supreme Court of New Jersey, in the case of *Imbrie v. Marsh*, 3 N. J. 578 (1950), ruled that R. S. 41:1-3 is unconstitutional insofar as it prescribes an oath for state officers different from the constitutional oath. In addition, while there has been no test case on this point, the provisions of R. S. 41:1-3 which refer to counsellor or attorney-at-law oaths would seem to violate Article VI, Section II, paragraph 3 of the New Jersey Constitution, which states that "The Supreme Court shall have jurisdiction over the admission to the practice of law and the discipline of persons admitted". However, the Supreme Court's ruling in the *Imbrie* case did not find

unconstitutional the application of the oath found therein to municipal or county officers.

The retention in R. S. 41:1-3 of provisions for oaths of office which have been expressly held by our highest court to be unconstitutional has caused and will continue to cause confusion among both administrative officials and members of the public. This bill does not excise the unconstitutional matter. While it would undoubtedly clarify the language of R. S. 41:1-3, it nevertheless would at the same time simply re-enact the language ruled unconstitutional.

I am accordingly returning Assembly Bill No. 470 for reconsideration, with the recommendation that it be amended as follows:

On page 1, section 1, line 3, delete the words "the Governor for the time being and".

On page 1, section 1, lines 5 to 7, delete the words "or to any office of the militia, of, or in, this State or of, or in, any department, board, commission, agency or instrumentality of this State, or".

On page 1, section 1, lines 9 and 10, delete the words " , and every counsellor and attorney-at-law, ".

Respectfully,

[SEAL]
Attest:

RICHARD J. HUGHES,
Governor.

LAWRENCE BILDER,
Acting Secretary to the Governor.

ASSEMBLY BILL No. 133

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 133, with my objections for reconsideration.

This bill provides that a deposit made on the purchase of a plot of land and a dwelling house to be constructed thereon is a trust fund. The fund may be used only for the purpose of performing the contract for which the trust fund is a consideration except in the case where more than 1 dwelling house is to be constructed as part of the development of a tract of land. In such case, the trust fund may be used in the development of the tract of land. In addition, the bill provides that the trust be enforced by a civil action in the Superior Court. The trust is also given the status of a statutory lien under both the Federal Bankruptcy Act and New Jersey's corporation insolvency statute. A misdemeanor penalty is provided for "any person receiving said moneys, or any agent of said person, or any officer of a corporation receiving said moneys, who pays or consents to an unlawful diversion of such moneys."

The protection this bill would afford the home purchaser from misuse of his deposit is a worthwhile objective and one which I support. The bill, however, has several defects.

The penalty provision of the bill, for example, is loosely drawn. A misdemeanor penalty could be imposed upon an innocent employee who acted contrary to the provisions of the act but under his employer's orders in handling moneys constituting trust funds.

The provisions of the act relating to the bankruptcy or insolvency laws are also undesirable in that they reduce the status of the trust fund from statutory trust to statutory lien. Statutory lien takes third priority under the Federal Bankruptcy Act and fifth priority under New Jersey's corporation insolvency law.

Treating the trust fund as a statutory trust would enhance its position under both the Federal Bankruptcy Act and the State's insolvency law.

Accordingly, I am returning Assembly Bill No. 133 for reconsideration, with the recommendation that it be amended as follows:

On page 1, title, delete "violations shall be misdemeanors" and insert in lieu thereof "violators shall be disorderly persons".

On page 1, section 1, line 1, delete "received by any person" and insert in lieu thereof "paid".

On page 1, section 1, line 1, delete "on account of the" and insert in lieu thereof "advance by a person who has contracted or agreed to".

On page 1, section 1, line 2, after the word "purchase" delete "of".

On page 1, section 1, line 2, delete "and the plot of land upon which".

On page 1, section 1, line 3, delete "such dwelling house is to be constructed, made by the buyer".

On page 1, section 1, line 4, delete "in the hands of the person receiving said moneys".

On page 1, section 1, line 5, delete "performing the" and insert in lieu thereof "carrying out the provisions of said".

On page 1, section 1, line 5, after the word "agreement" insert a period and delete "for the said purchase according".

On page 1, section 1, line 6, delete the words "to its terms by the person receiving the moneys, except in" and insert in lieu thereof "In".

On page 1, section 1, line 8, delete "in which case".

On page 1, section 1, line 8, after "said" delete "moneys shall constitute".

On page 1, section 1, line 8, delete "for use" and insert in lieu thereof "may be".

On page 1, section 1, line 9, delete "solely" and insert in lieu thereof "used".

On page 1, section 1, line 10, delete "by the person receiving the same".

On page 1, section 1, line 10, delete "as provided in the" and insert in lieu thereof "for the purpose of carrying out the provisions of".

On page 2, section 3, lines 3 and 4, delete "prior lien on the assets of the insolvent or bankrupt as against the general creditors of the insolvent or bankrupt as" and insert in lieu thereof "statutory trust with respect".

On page 2, section 4, line 1, delete "receiving said moneys" and insert in lieu thereof "party to said contract or agreement".

On page 2, section 4, line 2, delete "pays" and insert in lieu thereof " , with knowledge that such moneys constitute trust funds, unlawfully diverts".

On page 2, section 4, line 3, delete "guilty of a misdemeanor" and insert in lieu thereof "a disorderly person and subject to a fine of not less than \$200.00 or by imprisonment for not more than 30 days, or both".

Respectfully,

ASSEMBLY BILL No. 438

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 438, with my objections, for reconsideration.

This bill would confer on Delaware River Port Authority policemen the right to mandatory continuation of full salary during the entire period of any temporary incapacity occasioned by injury sustained in the performance of duty. It would also provide this disability benefit, upon satisfaction of specified requirements, where such employee incurred certain diseases of the heart and respiratory system.

I have just recently returned to the Legislature, without my approval, Senate Bill No. 89 which would have provided a similar mandatory salary continuation benefit for school district employees. In that bill, the mandatory benefit contemplated was limited to a period of one year and would not, as here, have extended for the entire period of disability. My actions in respect to both these bills reflect my conviction that no such benefit should be made mandatory.

As is well known, the Port Authority is authorized by existing law to provide its employees, including the subject policemen, with such compensation and other fringe benefits as it, in its discretion, deems necessary. While there can be no objection to a clear legislative statement, directed to the Authority, that its employees may be granted additional sick leave for a period of one year, conforming to precedents in this area, I am convinced that the application of this benefit must be left to the employer's discretion.

Only in this manner can there be any assurance that some consideration will be given to the questions whether the work relationship is too tenuous, the injury too dubious or the merit of the claim too uncertain to warrant fully paid leave. Furthermore, such discretion would permit the employer to exercise sound judgment, having due regard to the availability of permanent workmen's compensation

benefits, accumulated sick leave rights and disability benefits under retirement laws, in determining whether in fact equity requires some continuation of salary and, if so, how much and for how long.

I can see no fundamental reason for distinguishing this particular group of policemen from other public employees by the grant of either a mandatory or unlimited benefit. Neither, in fairness, does there appear to be justification for singling out one particular group of Port Authority employees for special consideration. While it may be true that these policemen are more liable to injury, nevertheless, if an employee in some other classification is in fact injured it would seem that he should have similar benefits available to him.

The question of how the problem of heart and respiratory system diseases should be approached in this area is still an open one. No such benefit as here contemplated has as yet been extended to our municipal policemen and firemen. Until this question has been resolved for local police and fire personnel, I can see no reason for conferring such favorable treatment on this group.

I am accordingly returning Assembly Bill No. 438 for reconsideration, with the recommendation that it be amended as follows:

On page 1, title, lines 1 and 2, after "Act" delete "providing for the payment of salary, medical and hospital expenses of policemen employed by" and insert in lieu thereof "concerning employees of".

On page 1, section 1, line 1, delete "Any policeman employed by" and insert in lieu thereof "Whenever any employee of".

On page 1, section 1, line 1, after "Authority" delete "who".

On page 1, section 1, lines 2 to 5, delete after "is" on line 2: "injured in the performance of his duties and is thereby temporarily incapacitated shall be entitled to his full rate of salary until the disability arising therefrom has ceased. The port authority shall also pay all medical and hospital bills incurred in connection with such injury." and insert in lieu thereof: "absent from his post of duty as a result of a personal

injury caused by an accident arising out of and in the course of his employment, the port authority may pay to such employee his full salary or wages for the period of such absence up to 1 calendar year without having such absence charged to the annual sick leave or the accumulated sick leave to which such employee may also be entitled as an employee of the port authority."

On page 1, section 1, lines 6 to 11, delete in their entirety and insert in lieu thereof:

"Salary or wage payments provided in this section may be made for absence during any waiting period, and during the period the employee received or was eligible to receive a temporary disability benefit, under the compensation laws of this State or of the Commonwealth of Pennsylvania, as the case may be. Any amount of salary or wages paid or payable to the employee pursuant to this section shall be reduced by the amount of any workmen's compensation award made for temporary disability."

On pages 1 and 2, section 2, lines 1 to 10, delete section 2 in its entirety.

On page 2, section 3, line 1, delete "3." and insert in lieu thereof "2."

Respectfully,

RICHARD J. HUGHES,

Governor.

The Clerk read the following message from the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 8, 1963. }

ASSEMBLY BILL No. 300

To the General Assembly:

Pursuant to Article V, Section 1, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 300, with my objections, for reconsideration.

This bill would expressly authorize local boards of education to participate in the "organization, operation and maintenance" of a noncommercial, nonprofit, educational television station in this State. In addition, local boards of education are expressly authorized to utilize the services of a noncommercial, nonprofit, educational television station "in this State". The local boards are empowered to incur the necessary expenses therefor.

Present law, as construed by the Attorney General by virtue of Formal Opinion No. 2 (1962), states that a local board of education, under its implied powers, is permitted to enter into contracts with educational television stations, no matter where located, for educational programs. Such power is derived from the express grants of authority enabling local boards to adopt, prescribe and alter courses of study. R. S. 18:6-20; R. S. 18:7-57(c) and (d); R. S. 18:7-58; R. S. 18:8-14. There is, therefore, no provision in the existing law which could be construed as prohibiting local boards of education from utilizing the services of educational television stations which are not located "in this State" but whose programs can be received in this State. For example, some local boards have contracted to utilize the services of WNDT, Channel 13. Although Channel 13 is technically considered by the F. C. C. as a New Jersey station, even though it is a New York corporation, its studios and transmitters are in New York.

To the extent that Assembly Bill No. 300 could be construed as prohibiting contracts for service with television stations which are located beyond the boundaries of New Jersey it is undesirable legislation. This is especially true at the present time since there are no educational television stations now in operation in this State.

In addition, this legislation, which would grant local boards of education the power to enter into agreements for participation in the ownership and operation of a television station, marks a novel departure from the customary responsibilities of such local boards. For this reason, I believe that it is necessary to provide the State Board of Education with the authority to promulgate rules and regulations concerning such arrangements and to grant the Commissioner of Education the power to review any contemplated contracts.

I, accordingly, return Assembly Bill No. 300 for reconsideration, with the recommendation that it be amended as follows:

On page 1, Title, line 3, following "station," insert "or to contract for such services".

On page 1, section 1, lines 2 to 5, following "aid" delete line 2 and through line 5 in entirety and insert in lieu thereof: "by contracting for the services of any noncommercial, nonprofit, educational television station located within or without the State but such contract shall not require the board to incur expenses in any 1 year period in excess of an amount equal to \$2.00 per pupil in average daily enrollment in the district.

"2. Every board of education, in addition to the powers set forth in section 1 of this act and subject to the rules and regulations of the State Board of Education, may participate in the organization and operation of a noncommercial, nonprofit, educational television station in this State and utilize the services therefrom, and in order to effectuate such purpose, every board of education is authorized:".

On page 2, section 2, line 1, delete "2" and insert "3".

On page 2, section 3, line 1, delete "3" and insert "4".

On page 2, section 3, line 2, following "program" insert "or enter into any contract".

On page 2, section 4, line 1, delete "4" and insert "5".

On page 2, section 5, line 1, delete "5" and insert "6".

Respectfully,

RICHARD J. HUGHES,
Governor.
